BUSINESS IS BETTER.

Express Companies Shares in Improved Canadian Condition

MONTREAL, Jan. 17:-Reflecting the marked betterment in general business conditions throughout Canada during 1937, the volume of traffic handled by the Canadian National Express over the Canadian National Railways and other lines on which it operates showed a substantial increase over the traffic volume handled during 1936, acday by G. E. Bellerose, general entire country.

While the major proportion of the improvement was due to an increase in the volume of general merchandise traffic, there were also fair increases in the movements of fresh and salt water fish, domeslantic, reported that she was tic and foreign fruit as well as other perishables usually transported by express.

Mr. Bellerose pointed out that a substantial reduction in charges on packages weighing two to 25 pounds destined to points reached by express companies in Canada was placed in effect on December 20, 1937, by the Canadian National and all other express companies operating in Canada. There were corresponding reductions in charges on heavier packages moving between transcontinental points.

In keeping with the practice for some years past a large number of horse-drawn vehicles were withdrawn at several points in Eastern and Western Canada and replaced by motor trucks. Such changes were made for the purpose of speeding up collection and delivery of express traffic.

"So far as can be foreseen at this stressed the value to the mining City's Sinking Fund Now Totals date," Mr Bellerose said, "the prospects of increased express business during 1938 appear to be fairly
