KELOWNA INCIDENT

(Continued from Page One)

would in any way interfere with the other roads of the province. He was hoping to make an arrangement with the Dominion whereby the government could map out a definite road program for five years ahead at least. Under the present system it would take a lifetime to complete some very vital links in the system but the Alacka road would in no way interfere with any program for road construction now being considered. If built, the United States would have no control whatsoever over the road.

Both the government and its newest minister, Hon. "Bill" Asselstine, came in for praise from the next resolution which recommended the government action in creating a department of trade and industry. The convention recommended continuance of endeavour to expand industry and increase tourist traffic and urged that every encouragement be given to the establishment of an iron and steel smelter industry within B. C. as early as possible.

Mr. Asselstine was greeted with prolonged applause as he stepped to the microphone to give an account of his six months' sojourn as minister of mines and trade and industry. He cited the tremendous amount of work accruing and asked his listeners to bear with him for a year or so. "I will work with the government to make this province the best place in which to live," he concluded.

The government has announced its intention of prospecting and participating in the development of oil possibilities in the Peace River territory and the convention approved the plan.

Endorsation of the convention was given to the attitude taken by Premier T. D. Pattullo in advocating a vigorous immigration policy of suitable citizens of other countries on a selective basis, adequately financed in such countries. The delegates also wished the dominion, provincial and railway authorities called together to formulate such a policy.

The only disturbing feature of the convention was the attempt by George Nickerson, Prince Rupert, delegate, to have a resolution turned down by the resolutions committee, brought up from the floor of the house.

Dr. W. J. Knox, chairman, made it quite plain that the only way such a resolution could be introduced, according to the association constitution, was by a vote of two-thirds of the convention. Mr. Nickerson attempted to interrupt the chairman on several occasions on a point of privilege but the latter stood pat and refused to have the resolution presented unless the meeting advocated such a move.

It was stated by Mr. Perry, resolutions committee chairman, that some 150 resolutions had been deemed contrary to good policy to be introduced but these would be forwarded to the individual government departments for consideration.

Dr. Knox observed that if the convention allowed this resolution to go forward it would be voting non-confidence in the resolutions committee action.

Mr. Nickerson insisted that the meeting vote and practically to a man the delegates rose to refuse allowance of the Prince Rupert resolution which is said to have condemned the government attitude of confining the beer business, road contracting and fish processing.

"I spent \$200 of my own money to come from Prince Rupert and find if this is a Liberal convention," he shouted. "I find it isn't a Liberal meeting. Good day." Forthwith, white with rage, he

FOUR NEW MEMBERS

Initiation at Canadian Legion Club Rooms Last Night

At the regular monthly meeting of the Prince Rupert branch of the Canadian Legion of the British Empire Service League last evening in the Canadian Legion clubrooms with President Jack Preece in the chair four of the recently admitted members were initiated. The impressive ceremony was carried out by M. J. Dougherty, H. Breen and J. M. Walker with sergeant-at-arms G. J. Dawes assisting. The members initiated were H. Douglas, W. Gair, H. C. Moles and H. Thain.

In connection with the recent grant of ten plots in the Fairview Cemetery to form an addition to the present Soldiers' Plot which is nearly filled a committee was appointed to have the lots properly cleared and the whole suitable enclosed.

In accordance with the practice of participating in city competitions it was decided to enter a team from the Canadian Legion in the City Bridge League. A committee of H. A. Breen and M. J. Dougherty was also appointed to co-operate with the Women's Canadian Club in the matter of the proposed visit of an ex-serviceman speaker who is to address a meeting next week in the city.

Other matters discussed in addition to the routine business were the matter of educational facilities for children of ex-service men and the care of ex-service men patients.

Australians Seek Model Housemaids

SYDNEY, N.S.W., Sept. 15: (CP)—Australian housewives have offered special inducements to attract domestic help, for which a serious shortage has arisen. A recent survey showed 107 women sought the services of a housemaid described as "model."

It was found many girls preferred other work at lower wages to domestic service. Some employers offered transportation, higher pay and guarantees the servants would not have to do washing and ironing.

In one suburb housewives established an attractive club-room governed by the girls, who make a small weekly contribution toward upkeep.

grabbed his hat and stalked out of the convention hall, the other delegates assuming an air of indifference to his rage.

From a column of convention notes is taken the following: The first Liberal party convention in six years was something of a love feast. Previously it had been anticipated that there would be a bit of trouble on some points but the trouble makers apparently stayed at home. The only excitement came from the Prince Rupert district delegates who caused a little flurry on Friday afternoon but they were alone in their attitude and the convention would have none of them.

Don't Let Constipation Drag On!

Do you often have days when you wake up tired—when you feel dull, sunk, "all bogged down"? It's time you did something about it. And something more than just taking a physic! You should get at the cause of the trouble! If you eat what most people do—just bread, meat, potatoes—chances are that just this fact is responsible: you don't get enough "bulk." And "bulk" doesn't mean a lot of food. It means a kind of food that isn't consumed in the body, but leaves a soft "bulky" mass in the intestines that helps a bowel movement. If this is your trouble, what you need is crisp crunchy Kellogg's All-Bran for breakfast. It contains "bulk" plus Nature's great intestinal tonic, vitamin B. Eat it every day, drink plenty of water, and see if your old sparkle doesn't come back! Made by Kellogg in London, Ontario.

Man in the Moon

I am sure I shall never get to like writing the word "Czechoslovakia" and "Berchtesgaden" to a scribe is anathema.

People who bought stocks a few months ago now wish they had waited until Hitler spoke the word and they dropped.

It is too bad about Spain and China. Both seem to have dropped off the map temporarily at least. We would not even have known Japan was still there if she had not backed Hitler.

I hear that a lot of Prince Rupert people are talking of migrating to Zeballos. They find it too dry here.

Mr. O'Jawish—Well, Mrs. Murphy, I'm glad to see you. How did you like your trip abroad this summer?
Mrs. Murphy—Well, I liked Paris, London and Rome, but the best part of the whole thing was the trip over. Don't miss that, whatever you do, if you ever go to Europe.

"If," said the examiner at the naval college, "you stand facing east, will north be on your right hand or your left?"
"I'm afraid I don't know, sir," said the prospective cadet; "you see, I'm a stranger in these parts."

McNairn—T'was a fine sermon the day, Sandy, tho' mebbe a wee bit personal for ye.
Sandy (the village reprobate)—Ach! weel, mon, I dinna ken—it's a mighty puir sermon that disna hit me somewhere!

The inquisitive woman was worrying the gardener.
She asked a lot of meaningless questions.
"What steps do you take with caterpillars?" she asked.
"Well, mum," said the exasperated gardener, "I takes half-a-dozen steps into our nearest field and turns the caterpillars round three times so that they gets giddy and don't know their way back."

GIRLS DEFEND TREES

MELBOURNE, Sept. 15: (CP)—When city workmen attempted to cut down a row of Australian popular trees technical school girls surrounded them and defied the order of the city council which was afterwards rescinded.

Burns Lake Man To Be Magistrate

VICTORIA, Sept. 15.—The British Columbia government has appointed Patrick V. Tallon of Burns Lake as stipendiary magistrate for the county of Prince Rupert.

Mr. Tallon is the station agent at Burns Lake, has been there for many years and is well and favorably known in the district.

Mountie's Visit Recalls Famous Blockade Runner

Grandson of Tallahassee's Skipper Comes to Halifax; Confederate Ship Ran Gauntlet

HALIFAX, Sept. 15: (CP)—The visit to Commissioner Stuart T. Wood of the Royal Canadian Mounted Police to Halifax recalled that he is the grandson of the skipper of the famous blockade runner Tallahassee.

The Tallahassee, under the command of Captain John Taylor Wood was a swift and adventurous craft, and she ran many a valuable cargo out of Halifax for the Confederate forces during the American Civil War. Cargoes and provisions were picked up at Halifax and the sleek craft would creep carefully down the coast, avoiding the enemy patrol boats.

Under British regulations, the blockade runners were only permitted to remain in this port for 24 hours, and if the vessels failed to clear in that time, they would have been required to remain in the harbor until the hostilities had ceased.

(The Tallahassee and her able skipper performed a remarkable feat during the war days that has never been forgotten in Halifax. Learning that enemy ships were hovering off the mouth of the harbor waiting to seize him as he left port, Captain Wood took a Halifax pilot aboard the blockade runner and navigated her down the narrow and dangerous Eastern Passage, skillfully managing to keep the craft in the narrow channel lined by shoals.

Reaching the open sea after this dangerous feat under cover of darkness, Captain Wood ordered all lights screened and slipped quietly away as the enemy ships waited vainly.

THE WOMAN PAYS

MELBOURNE, Victoria, Sept. 15: (CP)—Equality of the sexes—even when it comes to paying bills—is championed by male and female students at University of Melbourne.

LAND REGISTRY ACT
Re: Certificate of Title No. 12144-I, to the East Half of the South West Quarter of Section Five (5), Township Three (3), Range Five (5), Coast District, in the Province of British Columbia, said to contain Eighty (80) acres, more or less.
WHEREAS proof of loss of the above Certificate of Title issued in the name of John A. Halverson has been filed in this office, notice is hereby given that I shall, at the expiration of one month from the date of the first publication hereof, issue a Provisional Certificate of Title in lieu of said lost certificate unless in the meantime valid objection be made to me in writing.
DATED at the Land Registry Office, Prince Rupert, B. C., this 3rd day of August, A. D. 1938.
ANDREW THOMPSON,
Deputy Registrar of Titles.

Grasshoppers Are Difficult Hazard To World Cyclist

REGINA, Sept. 15: (CP)—Task of pedalling a bicycle through swarms of prairie grasshoppers equals any hazard of a round-the-world trip that led through the jungles of Malay and the Arabian desert, said 24-year-old Allan Pendelbury upon his arrival from Vancouver recently on a trip round the world by bicycle and steamer.

He is heading for the Atlantic coast where he will board a steamer for his home in Lancashire, England.

"I know now there is nothing quite so helpless as a lad on a bicycle in a swarm of Canadian grasshoppers," Pendelbury said in speaking of his journey through Alberta and Saskatchewan wheat fields.

"They rode with me from Swift Current to Moose Jaw, playing leap-frog on my handlebars, hopping down my shirt, getting in my hair and hitting my eyes at a speed of 30 miles an hour."

Young Pendelbury left his home in Lancashire two years ago to fulfil a boyhood ambition to see the world.
