Camp Borden

TORONTO, Oct. 19: (CP)-Defence forces of Canada have just completed "grand scale" manoeuvres at Camp Borden for the first time since the Great War. So far as the territory over which th troops operated was concerned, the mimic warfare was imposing. It covered close to 800 square miles of country, not unlike the rolling ground north of the Somme, But with that the grandiose character! ceases. At no time were more than 2,000 troops engaged and of these only about 1,500 were soldiers of the permament force as Canadians call their small regular army Two militia regiments took part for three days.
