SHINING LINES

"Shining Lines" is the name of a house organ of the Mergenthaler Linotype Company. That does not mean much to the average reader. What is interesting is that Thomas Dreier, the editor, sometimes steps on the tail of an idea and the idea hits somebody else. In the Daily News office we had noticed that the file under the letter "C" was twice as large as any other. But the "Shining Lines" editor says it is not only good customers whose names begin with "C". There are six thousand words in the English language beginning with the same letter and among them are such words as constitution, court, capital, consumer, chaos, controversy, collapse, control, co-operation, conspire, crush, conscience and character but the greatest of all he considers is the word "citizen." It has a French origin and a man actually became a citizen when his intelligence told him he could get more through co-operation with his neighbor than he could by conspiring against him—usually with a club.

Many of us still have that same lesson to learn. We do not need to look across to Asia or Europe for examples of poor citizenship. Neither do we have to look to any other country, province or city to note examples of good citizenship. We have plenty of the right kind here in Prince Rupert. Local people who read this may stick out their chests and feel that the Daily News means them.

ARE WE PARASITES?

According to Dr. E. A. Hooten of Harvard all those who are not inventors or geniuses are parasites. We are all living on the inventive genius of the few. Here are a few of the words of this famous evolutionist when speaking about those of us who are not engineers or inventive geniuses:

"He breathes a mixture of gasoline fumes and carbon monoxide and reeks of evolution decay. A premium is put upon illiteracy by the radio and the talking moving picture. These mechanical marvels are the means of world-wide spread of vulgarity, depravity and misinformation, since they pander to the tastes of those who are capable of neither contriving nor understanding but only of crude perception, stimulated by turning a switch or pressing a button—motor performance without the capacity of a lamp. Man made himself out of an ape, partly by becoming an engineer. The danger now is that the process will be reversed and the engineers will make apes of us all."

MAKING A FOOL OF ONESELF

One more shining line quotation and we are through for today:

"The old man who says, 'I'm just as young as I ever was,' and tries to prove his statement by his actions is almost certain to make a fool of himself. An old man should advertise himself by his mellowness and wisdom, not by his youthful antics. 'Too much action in an old man,' says Lin Yutang, 'is like a broadcast of jazz music from a megaphone on an old cathedral.'"

Indians Win Over Boston Red Sox While Yankees Lose To Detroit Tigers

Paul Thompson Spending Summer In Vancouver

CLEVELAND, August 3.—(CP)—By winning an 11 to 4 victory over Boston Red Sox yesterday, Cleveland Indians reduced the margin of leadership of the New York Yankees in the American League to one game and a half, the Yanks having dropped a close 4 to 3 contest to the Tigers of Detroit.

In the National League the Pittsburgh Pirates, although defeated 3 to 1 by Boston Bees, retained their five game margin over the New York Giants who were blanked 2 to 0 by the Chicago Cubs who are now but a game and a half below the Giants in third place. The Brooklyn Dodgers, by taking both ends of a double bill from the St. Louis Cardinals, assumed leadership of the second division displacing the Boston Bees.

Yesterday's Big League scores were as follows:

National League

Chicago, 7; New York, 0.
St. Louis, 3-3; Brooklyn, 6-9.
Pittsburgh, 1; Boston, 3.
Cincinnati, 3; Philadelphia, 2.

American League

New York, 3; Detroit, 4.
Boston, 4; Cleveland, 11.
Philadelphia, 4; Chicago, 8.
Washington, 5; St. Louis, 3.

Acropolis Boys Win Again In Rounders League

Acropolis boys stretched their unbroken winning streak in the Gyro Softball League last night at the expense of the luckless Westview team whom they beat by a score of 15 to 8.

The game was a dull affair with weak fielding the cause of most of the scoring. Acropolis opened the game by scoring twelve runs in the first two innings. Practically all these runs were the result of errors.

Westview's big innings were the first, when they scored two, and the fourth when they scored four runs.

One of the fielding highlights of the game was Brass' double play when he reached up with one hand to pull down a line drive over second base and toss to first for a double play.

Both Mah and Barker of Westview hit four for five while Acropolis' big hitters were O'Neill and Bill Schaeffer who managed to hit safely four times out of six trips to the plate.

Pitchers on both teams—Magnet for Acropolis and Bert O'Neill for Westview—were frequently in difficulties but the good support given Magnet by his fielders was the deciding factor in the game.

Captains were: Ray O'Neill for Acropolis and Emil Blain for Westview.

Umpires were Neil Ross and Gus Stromdahl.

Tagging Whales To Mark Travel

South Seas Whaling Ship Reports After Trip to Check Migration

CAPTOWN, August 3: (CP)—The whaling research ship, Discovery II, returned to Simonstown after five months' work in the Antarctic. The Discovery's main task in the Arctic was to collect data bearing on the numbers and the annual migration of whales to enable their movements to be traced.

In one case a whale marked off the Falkland Islands was captured three months later off the Australian coast, having travelled halfway round the globe.

For the first time in the history of Antarctic research, the Union Government was associated with the work of the research ship. This was a result of a decision taken at the recent Imperial Conference at which the Dominions in the Southern hemisphere were invited to appoint scientists to join the expeditions.

As a result, much information of interest to the coastal whaling industry and to the meteorological department and the Fisheries Board has been obtained.

TUNA SEASON NEAR

SHELBURNE, Aug. 3: (CP)—Nova Scotia fishermen passed the word along cheerfully that the herring had arrived, resulting in a harvest for them and an indication that the tuna were not far behind. Small boats all along the coast are ready for the United States anglers who will arrive shortly.

HARD ON SOFT DRINKS

WINNIPEG, Aug. 3: (CP)—Canadian's drinking habits are not as cultivated as they ought to be, said Raymond F. Brooke, Dublin wine merchant on a tour of Canada. "Why, a wine merchant would starve in this country. You don't imbibe anything but soft drinks. If a man wants to drink, here he has to go off in a dark corner by himself."
