BIG SHIP IS AFIRE ON OCEAN

German Liner Deutschland Sends Out "S.O.S."—Vessels Racing to Her Aid

NEW YORK, Oct. 26.—The great German transatlantic liner Deutschland was afire in the ocean 200 miles south of Cape Race, Newfoundland, last night with the lives of 800 passengers and crew of between 300 and 400 at first believed in danger, later advices stating that the fire was under control. In distress messages, which sent eight ships racing towards the stricken vessel, the captain said it might be necessary to take to the lifeboats in stormy seas. Preparations were being made to abandon ship. The fire was in No. 2 hold and raged alarmingly for three hours.

The British steamer Columar was some eighty or ninety miles away and was the first to reach the scene. Other vessels proceeding to the aid of the Deutschland were the American Trader, Bremen and Europa.

FIRE WAS NIGH BAD

Flames in Fish Oil Manufacturing Plant During Gale Menacing For Time

What might have been a serious conflagration on the local waterfront during last night's gale was averted as a result of the quick work of the city fire department. As it was some \$200 damage was done to the plant of the J. H. Carson Co.

It was at 6:15 that the department was called. The outside wall of the plant had taken fire from a defective chimney and the flames were well under way with a high wind blowing. Promptly two lines of hose were connected to a nearby hydrant and it was not long before the blaze, despite its menacing appearance, was under control.

Damage to the building, owned by the provincial government, is estimated at \$100. Stock was damaged to the extent of \$75 and equipment \$35, there being insurance.

Anticipates no Difficulty in Connection with New Wages and Hours Law

BIG FIGHT NOW OVER

Sino-Japanese Conflict Expected to Be Pursued Now On Guerrilla Basis—Hankow Largely Destroyed

SHANGHAI, Oct. 26: (CP)—Japanese and foreign dispatches report that the Japanese army and navy completed the occupation of Hankow today as well as the sister cities of Wuchang and Hanyang. Twenty-six Japanese warships steamed up the Yangtze to a position off Hankow's Japanese concession. Army units marched into Hankow from the northeast.

COMPLETE OCCUPATION

SHANGHAI, Oct. 26: (CP)—Following the taking by the Japanese of Canton and Hankow, it is believed major battles in the Sino-Japanese war are now over and that the conflict henceforth will be of a guerrilla nature.

Hankow, according to reports received here, is a seething shambles of flames and wreckage. Government and municipal buildings were wrecked and burned by the fleeing Chinese who destroyed everything possible, touching off explosives on many occasions.

The fact that the water system had been wrecked made it practically impossible to combat widespread flames. There was some resistance by the Chinese as the Japanese entered the industrial section of Wuchang.

The Japanese authorities have warned foreign naval officials to remove their vessels from Hankow where they have been used as a shield to protect the Chinese troops in their escape. Great Britain refused to comply with the warning.
