ng by resolution.

I spent a Sunday in Smithers and the frost in the early spring and soon. the town was almost wholly desert-, ed on that day. While a few spent at least a part of the day on the • golf links, the majority seemed to have gone fishing to the various lakes and streams of the district and on Monday trout proved a de-i licious dish on the dinner tables of local residents.

Mining is Quiet

There is not much to be said just now about mining. There is still plenty of ore at the Duthie mine! but the price of silver is not sufficiently attractive to the owners to make operation attractive. There are other very good prospects on Hudson Bay Mountain but there is a lack of confidence on the part of the investing public which makes it difficult to raise money for development. There are also good prospects in the Babine Mountains
