RAISING FROGS FOR A LIVING

MISS ISABELLE MORGAN, AN ORIGINAL KIND OF GIRL, HAS DISCOVERED AN ORIGINAL AND PROFITABLE OF MAKING A GOOD LIVING.

Frog farming is an enterprise carried on by at least one girl today.

Miss Isabelle Morgan is a pioneer in this line. Before taking up the occupation of frog farming she was a stenographer in Baltimore. The strict business training then gained she considers the basis of her success.

When the strain of office hours

Especially large, fine specimens are shipped by Miss Morgan for use in biological laboratories. These often bring as big a price as three dollars each.

The frog reserve of this Maryland girl consists of a series of marshy ponds, each enclosed by fine wire fencing. This prevents the escape of the frogs and insures their safety against snakes

told on Miss Morgan's health, her physicians ordered her into the open air and she returned to her home on a farm. A progressive, ambitious girl in touch with large interests finds such a situation difficult. In looking back Miss Morgan considers it the most fortunate incident of her career, for she embarked in her present business.

Maryland is one of the six states that lead in supplying the country with frogs, and the marshy lowlands on Miss Morgan's father's property offered suitable environment for the work.

The bullfrog is the variety with which it is most profitable to stock a farm, as their large size makes them especially valuable as a table delicacy, and their greedy habits render them easy to capture. When sold for food one to four dollars per dozen.

and turtles. From May to July the ponds are closely watched for eggs, which are removed to another enclosure. Here the eggs hatch and the giant bullfrog tadpoles slowly develop through a period extending from one to three seasons. These tadpoles often reach a length of six or seven inches. They are carefully guarded, as not only the bulk of the full grown frog, but also the number of years necessary for this growth depends largely upon the tadpole before its transformation.

The frogs Miss Morgan sells for eating purposes have the legs skinned and shipped in ice water. The choice specimens destined for laboratory use are first selected.

It requires some time to establish a well organized frog reserve. When once the business is launched Miss Morgan's experience shows that it is both interesting and profitable.

THREE DAY CURE FOR DRINK HABIT

Appeals to the Business and Professional Man, the Banker, and Man in all the Higher Walks of Life

BECAUSE OF THE TIME IT SAVES THEM

When a man's time is worth a great deal more to him than the cost of a drink habit cure he is not going to drag along for twenty-eight to forty-two days taking a treatment when he can get a cure in three days, without hypodermic injections, and be surrounded with every comfort of home.

A PERFECT CURE.

The Neal internal treatment cures the periodical, occasional or moderate drinker and the nervous man who has to drink to keep from becoming nervous. It takes away all inclination to drink, all desire and craving to drink, by neutralizing the poison of alcohol in the system and ridding the blood

of the poison by a rapid system of elimination, leaving the drinker in the condition that he was before tasting liquor, so far as the effect of alcohol may be concerned—all appetite for drink gone—and he a new man.

The treatment consists of the internal administration of a harmless remedy, tonic in its action, that removes the craving for liquor in a very few hours.

DRUG HABIT CURED.

At the Vancouver institute we also treat drug addictions with uniform success. Call, write or phone for booklet, giving full information.

312 FEET

Is the distance at which Mr. Beedall of Pennsylvania shot a crow with his 16-bore greener gun. He considered his feat of such importance that not only was the distance measured by a civil engineer but his statement was sworn to before a justice of the peace. Of course such a shot is only possible with a GREENER GUN. No other gun in the world shoots so far and so close as the Greener. This has been proved over and over again from the time of the Great London "Field" Gun Trials of 1875, when the Greener gun beat 102 guns by the world's best makers and won the Field Cup for choke bore. There are many other features about the Greener gun, fully described in our latest catalog. Let us send you a free copy.

LEMUEL FREER.
Dated Dec. 7, 1911.
Pub. Jan. 5, 1911.

CARLISLE INDIAN GIRLS ROOT FOR CARLISLE FOOTBALL TEAM.

Don't accept the statement that the American Indian is a stoic until you have looked upon the above picture—a photograph showing a group of Carlisle Indian school girls cheering the school's famous football eleven. The girls are intensely interested in the plying of the team and many attend the games and cheer their representatives on to victory.
