Page Rideout Suggests Peace River, Northern B. C. and Yukon Cut

PEACE RIVER, April 28.—"As our ecuntry develops and extends and as that development brings us more and more in touch with problems that are peculiar to our Peace River country and as we all know that we have been the back concessions of Alberta and British Columbia now for 25 years, and during those years we have been receiving the same consideration as the people of the back concessions in the older provinces received fifty years ago, now we find the atmosphere filled with all kinds of plans for unifying the three prairie provinces under one government some wheresome place, not more than a thousand miles away from this northern empire." said Page Rideout before the Peace River Chamber of Commerce.

"Then, when we so recently learn of Premier Pattullo's ambition of absorbing the Yukon and the ma-, jor half of the district of the Mackenzie, the question surely arises with some significance: are we a Canadian people who are trying to levelop an important section of this Dominion, obliged to sit idly by and have no voice in such mat-;

WHEN ANTHONY E DEN WENT OUT

Pictured here are four of the cabinet ministers that participated in the emergency meeting of the British cabinet at which Foreign Secretary Anthony Eden and Premier Chamberlain had the showdown on dictators that ended in Eden's resignation. It was the first meeting of the cabinet on a Sunday since the emergency arising from the abdication of King Edward VIII. Left to right here— Lord Stanhope, minister of education; Sir Samuel Hoare, home secretary; Sir Kingsley Wood, minister of health, and Ernest Brown, Labor member.

Shed Neckties Designer Says

New York Expert Would Put Me In Silks and Satins

NEW YORK, April 28: ((P) Rise, gentlemen-here coines a wi man advocating the abolition of collars and neckties, and a return to the colorful silks and sat m Louis XVI's time.

She is Elizabeth Hawes, not New York dress designer and dabbler in men's clothes. She think men's clothes are illogical. impractical. Collars on suit coats should be abolished, she says; because they wrinkle up with nearly every nio ment and serve no particular purpose.

Shirt collars, she finds, hopeless and recommends a plain band instead, as on surgeons' and dentists' coats. Neckties of course are out toc. She thinks ties are used mainly for color anyway, and would sujiply that with brilliant shirts.

Miss Hawes' sartorial sentiments emerged recently in her book entitled "Fashion is Spinach" which stirred considerable comment with its candor on the Paris dress business and related arts.

"I've always been preoccupied with men's clothes," she wrote. "First because they're comfortable and second because they're uncomfortable, third because they're ugly and fourth because they're handsome." Her heartiest endorsement went to trousers which she thinks so practical that women ought to wear them more in active pursuits."
