DAILY EDITION.

### REAL STATION WORK IS NEEDED.

Among the numerous contributions to the platform discus- licensing or Police Commission- speech, and the field was left sions upon the vexing question of how most equitably to conduct the city's public works one of the best is that of Mr. Bullock-Webster, aldermanic candidate in Ward 2, who asks that the prices for the station work on the hydro-electric scheme be set in the audience. "I think this by the engineer and not be subject to competition among the city is as well ruled and orderly gangs. In this Mr. Bullock-Webster is really only pleading that from a police point of view as the ordinary customs in station labor be observed, and that real station labor be practised in the city. To invite groups of laborers to compete against each other is not station work—it is merely told that all was quiet. There a pauperisation of the contract system. Competition of that kind was nothing doing." is apt to be more cut-throat in its nature than in that between |ter.) regular contractors, who are less liable to make errors of judgment and calculation, or to take long chances in bidding on the work.

The ratepayers do not demand that the waterworks system be built by cut-throat competition. They do ask that it be well done and that the price paid be not above a fair market price for good work. Competition below this is not in the best interests of the residents here. Losses if made by station gangs contract which allowed more than are too liable to find their way through the account books of eight hours to be worked at no the city tradesmen in the form of bad debts. A sufficient guar- fixed wage. antee to the citizens should be the figures furnished by the City Engineer's staff as to what is a fair and reasonable price to pay for the various sections of work to be done.

As an alderman, Mr. Bullock-Webster, like many of his vernor Smith's office, and ac- G. vukovich, rivals, is an untried quantity. The stand he is taking to have the city's alleged station work done on real station work principles is an indication that he is bringing some real thinking to bear on the city's problems. This is a point to be remembered in his favor on voting day.

### A QUESTION FOR OUR NEXT MAYOR.

Alderman Newton has asked for written questions to be had the lawsuit not been forced answered by him at his meeting tonight in the Empress Theatre. Here is one for a start in regard to Plank 4 asking for a hydraulic fireboat to be used also for towing the garbage scow out sea, etc.:

Suppose a fire broke out in the Empire office some stormy afternoon when the hydraulic fireboat was four miles out at sea with a flood tide and the wind abeam, and the admiral of the sniff yacht seasick.

(1) How would Alderman Newton communicate with the contract system and said: "We To Contract system and system hydraulic fireboat?

(2) Should the captain be instructed to bring the scow back with him or to cut her adrift and leave the admiral to an AWFUL FATE?

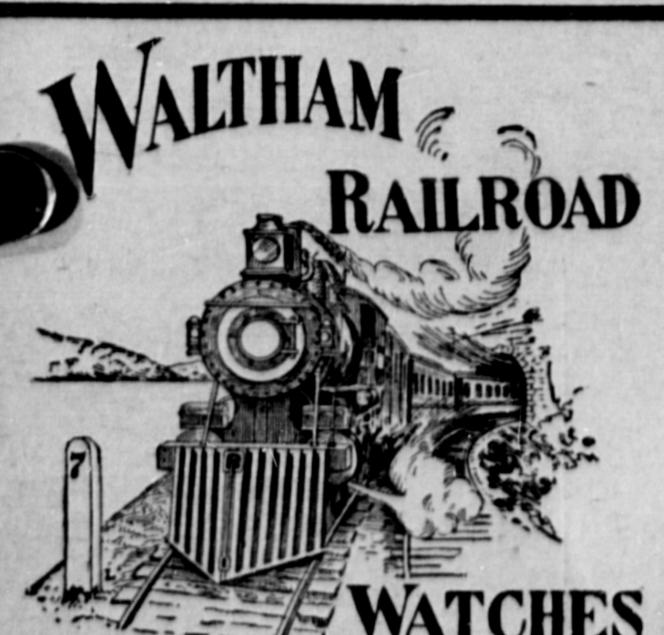

(3) What would happen to the Empire office and the business section between the time the fire broke out and the time the hydraulic fireboat got back to port?

# It Is Not Too Late

To send your New Year's present now. Why? Because we have a few exceptionally cheap bargains left. The East is a long way and you are flourishing in Rupert and was too busy to worry. Don't hesitate, but come today where Far Eastern and Oriental goods will be sacrificed at Eastern prices.

Answering Charlie Hunter's question, "What about the men Lots in all parts of the city. who were put in prison without a chance to speak?" Alderman Hilditch went right back to the first labor trouble on S. P. Mc-Mordie's contract. He declared the whole dispute started there and it was due to a flaw in the Second Ave.

Without directly answering Hunter's question, he went into description of the famous "Rainbow" meeting in Alderman cused Alderman Newton of having done absolutely nothing then on behalf of the workers he now championed.

### Called It a Lie.

Still on the strike question, Alderman Hilditch went on to say that the City Engineer was arbiter in terms of the contract and that on the city by the contractors and their lawyers the accounts would have been settled just as two had recently been settled.

"That is a lie!" called one of the Watson Bros. from the back. Before we ever went to a lawyer you would not talk to us."

Ignoring the interruption, Alderman Hilditch condemned the have had less trouble with day labor and got more satisfaction out of it than we have over the contract system." (Cheers.)

## Wants an Open Town.

G. R. Naden asked Alderman Hilditch his attitude on the extra hour for the hotels.

"Yo all know my principle," replied Alderman Hilditch. "I have always stood for a live, lighted town, to suit travelers coming by train and boat at all hours." Voices rang out with cries of

John!" etc.

"What I say I will do, I will do," added Alderman Hilditch. "I Second Ave...
