Vancouver Province Jumps to Conclusion That Local Liberals Are Critical of Government

VANCOUVER, Aug. 17: (CP)special dispatch from Prince Rupert published in the Vancouver Province yesterday says that the Prince Rupert District Liberal Association criticizes the British Columbia government in a resolution to go before the forthcoming provincial convention at Kelowna.

Consulted yesterday afternoon in regard to the Vancouver Province dispatch, officers of the Prince Rupert District Liberal Association, assuming that the resolution referred to is one urging that all tenders for public works be open to the public and that brewery and cannery licenses be open to anyone applying, stated that the resolution is not critical of the government but is of general character. It was felt proper that the text of the resolution not be made public at this time but should come out in the usual way after being dealt with at the Kelowna convention.

Famous Quintuplets Will Start on September 1 Providing they Are Better by Then

NORTH BAY, Ontario, Aug. 17: (CP)—The Dionne quintuplets will start school on September 1 if they lare recovered from a current throat ailment by that time. The studies HOLY LAND will follow lines drafted by Dr. HOLY LAND Duncan McArthur, deputy minister of education for Ontario, and approved by the father, Oliva Dionne. Whether the children will be taught in English is not announced.

At a public meeting with the Prince George Board of Trade while here it became known that Sir Henry would submit proposals with view to investigating the possibility, of settling British families on million acres of fertile unsettled land in Northern British Columbia between the junction of the Nechako and Fraser Rivers and Chief

## Would Start Presperity

Speaking at a dinner tendered him here, Sir Henry said: "If a plan can be devised by which 10,-000 settlers, backed by capital of Chiang Kai-shek, the Chinese say \$25,000,000, could be established in Central British Columbia, wheels prosperity. "Those 10.000 settlers, with wives and families, would at once require 20,000 horses, 50,000 dairy cows, 10,000 head of swine

and 100,000 poultry." There would be many subsidiary industries such as pulp and paper.
