A REAL BIRDIE

LONDON, July 27: (CP)—Playing in the qualifying competition for the Assistants Golf Championship at Sudbury, H. A. J. Young of Sonning hit a rook in full flight with his drive to the fifth hole and killed it. Despite this his score was 70 for the round.

TEST INTEREST HIGH

LONDON, July 27: (CP) — All seats were sold for the fourth England - Australia cricket test match at Leeds on July 29 and only a few are available for the fifth and final game starting here August 20.

GUM-DIPPING is a patented Firestone process not used in any other tire. With it every hundred pounds of cord fabric absorbs eight pounds of rubber and, as a result, every fibre, every cord and every ply in a Firestone tire is coated and insulated with pure rubber to counteract internal heat and friction—the greatest enemy of tire life.

Due to this extra process, Firestone Gum-Dipped Cords have 58% longer flexing life. Yet you do not pay one cent more for this extra value. And you also get 2 Extra Cord Plies under the tread and the Firestone Scientifically Designed Safety Tread.

As the mayor of Seal Cove once said. "We were once on the way to great fame and wealth but something happened." Possibly in this case it failed to happen.

There is a rumor around town that the telegraph offices are negotiating for the services of "The Mercury" for the delivery of their messages. Of course its just a rumor.

Wife—Wake up, Henry! There's a burglar going through your pockets."

Husband (rolling over)—Oh, you two just fight it out between yourselves.

When a person is habitually late for work he should be treated like a steamer when it is late. What do they do with steamers when they are late? Just dock them, that is all.

SMITHERS

When the special train bearing the party of 185 from Mississippi passed through Smithers at 5:20 last Friday morning there was a box of small pieces of ore made suitable for use as paper-weights put on board the train by the Omineca branch of the British Columbia Chamber of Mines, these samples being accompanied by small printed cards advertising the mining possibilities of this district. The samples of ore came from many properties throughout the district and were of many varieties from antimony to gold.

Mr. and Mrs. J. G. Stephens of Smithers returned from a holiday trip south by Monday morning's fast train. They were visiting with their son, Gerald, who is in the Royal Bank at Ladner and their daughter, Olive, who is training in St. Paul's hospital in Vancouver. Mr. Stephens has resumed his work as station agent at Smithers, well pleased with a very enjoyable vacation.

WAKE UP YOUR LIVER BILE—

And You'll Jump Out of Bed in the Morning Rarin' to Go

The liver should pour out two pounds of liquid bile into your bowels daily. If this bile is not flowing freely, your food doesn't digest. It just decays in the bowels. Gas bloats up your stomach. You get constipated. Harmful poisons go into the body, and you feel sour, sunk and the world looks punk.

A mere bowel movement doesn't always get at the cause. You need something that works on the liver as well. It takes those good, old Carter's Little Liver Pills to get these two pounds of bile flowing freely and make you feel "up and up". Harmless and gentle, they make the bile flow freely. They do the work of calomel but have no calomel or mercury in them. Ask for Carter's Little Liver Pills by name! Stubbornly refuse anything else. 25c.

The Prince Rupert Gyro Club was in special session at its regular weekly luncheon today. Matters taken up included the Morse Creek swimming pool and skating rink, the proposed district convention here in 1940 and the moonlight excursion on August 12 aboard the steamer Prince Charles. President D. G. Borland was in the chair and there was a good attendance of members.

Fine Pictures Of B. C. Mining To Be Shown Here

An unusual motion picture film of British Columbia's second largest industry will be shown by Howard T. Mitchell, publisher of the Financial News and chairman of the mining bureau of Vancouver Board of Trade, Vancouver, to members of the Prince Rupert Chamber of Commerce and their friends at a meeting in the city hall Thursday evening commencing at 8 o'clock.

"Behind the Chalkmarks" is the first moving picure of B. C.'s mining industry in action. Much of it in color, the film takes the audience through every major operating camp in B. C. as well as into the oil fields of Alberta. Enthusiastic response has been aroused at showings of the film in Vancouver and Victoria.

One of the features of the picture is the section which follows step by step the fascinating process of mining gold ore, treating it in mills and finally pouring the gold bricks which are converted into dividend cheques.

This will possibly be the only showing of the film in Prince Rupert as, after showing throughout the province this year, it will be sent to Eastern Canada and to Great Britain to publicize B. C. mining and Allberta oil development.
