TERRACE CONCERT

School Pupils Acquitted Themselves Creditably and Raised $75

TERRACE, March 29.—On Friday evening the pupils of the Terrace Public School presented a creditable program of songs, recitations, dances and a play. The event was held in the Oddfellows' Hall and although the night was wet and stormy,there was such a full house that about $75 was realized with which to purchase sports equipment for the school.

While all the numbers were well received and the young people acquitted themselves with assurance and talent, there were two or three of the items which elicited especially great applause. The tap dancing by Miss June Smith and a drill and acrobatics by the boys of Division 1 and 2 deserved special mention. CANADIAN NATIONAL RAILWAYS ANNUAL REPORT

(Continued from Page One)

marked recession in business in the United States, the disturbed international situation and the cumulative effect of a series of adverse crop conditions in portions of western Canada. None of those factors is within the control of railway management and, so long as they continue to be adverse, railways' revenue must be expected to remain at relatively low levels."

Well Equipped

"Fundamentally, the national system is well equipped to take immediate advantage of any improvement in world conditions which will tend to stimulate the trade upon which the prosperity of the railway depends," says Mr. Hungerford. "Pending such developments the railway is continuing to render the transportation service which is necessary for the country in the most economical manner.

"The effect of increased productivity in Canada upon the future revenues of the national system does not require to be stressed. An increase in productivity in any form of industry, including agriculture, at once reflects itself in the earnings of the system and decreases in the volume of production affect seriously the gross revenues of the railway."

The gross revenues of the Canadian National from transportation of grain grown in Western Canada in years 1925-1934 inclusive averaged $22,000,000 per annum, the tons of grain carried averaging 5,000,000 during that ten year period. The comparable figures for the past three years have been as follows:

1935—Tons carried, 3,720,944, revenue, $15,409,810.

1936—Tons carried, 3,915,606; revenue, $15,777,702.

1937—Tons carried, 2,356,656; revenue, $9,643,572.

"It will be noted that gross revenues of the railway from the movement of Western Canada grain in 1937 were only 44 percent of those obtained on the average during the ten year period ending in 1934. The general prosperity of the country resulting from good crops contributes even more substantially to the earnings of the railway.

"One of the pressing problems in the transport situation is the playing of highway and inland water competition on a fair and equitable basis in relation to the railways. The directors are gratified to observe the parliament and legislatures of Canada are giving consideration to this serious problem."

Co-operating With C.P.R.

During the year the directors reviewed the field of co-operation with Canadian Pacific Railway and enlarged the scope of their studies. The co-operative activities related to matters previously studied but largely to the study of abandonment of functionally duplicate lines of railway and preparation of detailed agreements in regard to those lines where abandonment had been recommended by the joint co-operative committee and approved by the joint executive committee.

The outstanding achievement in co-operation was the completion, after prolonged and difficult negotiations, of an arrangement for the closing of the Canadian Pacific Company's hotel in Vancouver and the joint operation of the new Canadian National Hotel in that city. This arrangement will become effective when the Canadian National hotel has been completed and furnished, which is expected will be in 1939. Such arrangement, it is expected, will reduce capital expenditure and produce an operating return for both companies.

The net expenditures on property investment account for the year 1937 were $20,874,664. Owing to the limited purchases of new rolling stock in recent years, as well as growing traffic requirements during the year, it was necessary to purchase the following additional equipment: 3,000 box cars, 400 refrigerator cars, 400 gondola cars, 200 automobile cars, 49 flat cars, 30 sand cars, 50 first class air-conditioned passenger coaches, 10 mail and express cars, 10 baggage cars and 15 snowplows. The value of rolling stock purchased or built was $17,876,000.

Construction of the Senneterre-Rouyn branch line through the gold and copper mining region of Northwestern Quebec was continued and it is expected that the entire branch, now partly operated, will be completed and in operation during the present year. Expenditures on this branch line in 1937 were $3,132,000.

The average number of employees in service, exclusive of hotel and subsidiary company employees, was 79,471 in 1937. The total payroll was $117,804,769. The number of employees on pension under Canadian National pension totalled 6,287 at the end of 1937.

IN THE HYGIENE COURT OF JUSTICE

"Undue Fatigue" Charge Against Housewife

(Before Mr. Justice Kruschen)

MOTHER-IN-LAW'S EVIDENCE

COUNSEL: Do you know the prisoner?

WITNESS: Yes, I do. The lazy . . .

JUDGE: (sternly): Do not be abusive.

COUNSEL: Why do you consider her fatigue unreasonable? The best of us get tired sometimes, you know.

WITNESS: Yes, we do when we've done a good day's work. But she is tired before she begins. Yawning through breakfast, neglecting her home.

JUDGE: As an experienced woman, what advice did you give to this young girl to help her prevent fatigue?

WITNESS: My advice to her is to do a good day's work occasionally.

JUDGE: How can she do that if she is unwell? Didn't you advise her to take Kruschen Salts?

PRISONER: (excitedly): My lord, she advised me not to. I wanted to take Kruschen.

JUDGE: W-H-A-T-!

WITNESS: I don't believe in these . . .

JUDGE: Take that woman out of court. Prisoner, though you have clearly been neglecting your health, I do not think that it was through your own fault. You realized the need for Kruschen, so I dismiss the charge against you.

PRISONER: Oh, thank you!

JUDGE: But I warn you: Do not miss 'the little daily dose' in future. I shall expect to hear no more about yawning at breakfast—or at supper either. Otherwise the consequences will be very serious indeed.

PRISONER: I shall start Kruschen tomorrow, my lord.

JUDGE: Very good. When girls like you get married they often give up outdoor sports and spend much too much time indoors, cooking and managing the home. The need for Kruschen is never stronger. The little daily dose helps keep you as fit and young looking as you were at school when you spent half the day playing tennis and hockey.

PRISONER: Oh, I am so glad to hear you say that, my lord.

KRUSCHEN SALTS

relieve constipation and rheumatism

Kruschen is a combination of several mineral salts which your body must get, in some way, to keep the blood pure, the inside clean, and the system generally toned up, but which you can't get in Nature's own way without abundant exercise and fresh air. You should have those salts *every day*; hence the importance of the "little daily dose". Every drug counter sells Kruschen in 25c, 45c and 75c bottles. *It's the little daily dose that does it.*
