IT CAN'T BE DONE

How often have we heard the opponents of progress! Baseball Standings say of a proposal "It can't be done." Then comes along someone with a wider outlook and more brains or energy than the rest of us and first thing we know it is done.

Some Prince Rupert people will remember the time when people said flowers could not be grown in Prince Rupert and yet look at the flower show being held here today and dare to make such a remark.

Today we hear about land settlement and we are told of any scheme to put people on the land "It can't be done." Yet we find men like Brigadier General Hornby saving "it can be done." We like to believe Hornby who is trying to do something rather than the pessimists who sit back and criticize those who are trying to do something.

Again we have people with us who see no prospect of Prince Rupert becoming an important seaport or a large city. These are people who are lacking in vision. Only a few years ago there were many people who wondered if Vancouver would ever be as big as Victoria. The people who stick by "It can't be done" are being super- NORTH SHORE seded by the people who believe "It can be done." Millions of people once believed it would never be possible for people to fly. They said "It can't be done," but people are
