DAILY EDITION

Saturday, October 22, 1938.

**ANOTHER BOOK ON RUSSIA**

One of the newer books on Russia is "Assignment in Utopia" by Eugene Lyons. Mr. Lyons is a journalist who for six years was United Press correspondent in Moscow. He was sent there because he was an undoubted Communist and, as such, would be likely to better interpret Russia to America. For years he excused everything he saw on the principle that the end justified the means but, after three or four years living in Russia, he lost sympathy with the bureaucrats who are running the affairs of that country to suit themselves and, eventually, was recalled by his press organization. He found that, because he had to tell the truth about Russia, he was ostracised by the Communists in the United States who not only would have nothing to do with him but did everything in their power to try to blacken his character.

In summing up his impressions of Russia and the Communist movement, Mr. Lyons says: "The international Communist movement is soaked through and through with a fetid Machiavellism that lies to its own adherents and to the rest of the world. Prevarication becomes a lopsided virtue instead of a fault. The whole movement is committed to a theory of multiple truths, each diluted and doctored for the palate and stomach of the recipient, beginning with a true truth for the uppermost layer of leaders and graduated down to downright lies for the masses. In between are the synthetic mixtures for special groups; a truth for the initiated officialdom, whose self-interest helps them to digest harsher morsels; a specially perfumed truth for Fabians, intellectuals, artists who are known to be allergic to the bloodier ingredients."

The book deals with the daily life of the foreigner in Russia as he found it and also tells of the demonstration trials, the oppression of the masses, the sufferings of the millions of victims of the secret police, the tortures used in police oppression. It also gives a good deal of the brighter side of Soviet life, the hopes and aspirations which led the people to accept suffering in the expectation of a better time to come.

This is the most enlightening of a number of books on Russia that have come to us. It is well written and, throughout the volume, the author makes an effort to be fair, giving the Soviet authorities the benefit of the doubt when doubt exists.

In addition 118 Canadians won residual and consolation prizes.

**SPORT CHAT**

George Gustaf Koltanowski, world's champion blindfold chess player, took time out in Winnipeg before giving an exhibition of simultaneous play to criticize bridge. "Bridge is no game for a sportsman," he said. "It is too easy to find alibis for defeat. A loser can blame his partner, the cards, or even the stars. Consequently the loser never really learns to take defeat with his chin up. "But in chess it is man to man and brain to brain, and he who cannot take a beating might as well not bother with the game."

Finances entered the issue, too. "You must pay to play bridge, pay for cards and prizes, whereas you may play chess free." Entrance into the best society was open to chess players, the champion continued. The men who count in business, professional life, educational institutions, often are players and are ready to welcome a fellow player.

**COACHES CORINTHIANS**

LONDON, Oct. 22: (CP)—Leading amateur soccer club in the country, Corinthians are coached by E. Magner, a former professional player. Corinthians toured Canada and the United States last year.

**DENTISTS GOOD BETTORS**
