

# PRINCE RUPERT'S ARMY

## First Line of Defence

By CIVILIAN

"Help! Get me in somewhere!" In the cold grey of early dawn on a recent Prince Rupert morning a man was awakened by this cry at the door of his humble home. He was sleepy and weary from labors of the previous day with people about whom nobody else, except perhaps policemen, cares. But true to his calling and the code of his Master, he sprang to attention at the call to duty. He opened the door and extended the Hand of Help to a dejected and outcast man fleeing from the urge of self-destruction. From the urge of self-destruction, down but he's never out," has removed from you a heavy burden of personal charity and responsibility and given you better citizens for the building of a community.

The cry of suffering men, women and children uttered in one hundred languages is heard and heeded in ninety-five countries. Thousands of tireless soldiers in a mighty Army have been ever on duty, never fainting in the line of service. Do you know these soldiers of the "Helping Hand" and what they have done not only for the world at large but your community and yourself? They are the soldiers of the Salvation Army.

The Salvation Army provides food and shelter for all who ask it, maintains industrial institutions, hospitals, refuges and orphan's homes; it locates the missing for anxious relatives and friends, secures employment for the unfortunate and rebuilds the lives of those who face a hostile world after a prison record. No one, regardless of race, creed or position has sunk too low in the scales of degradation for the assistance of this Army.

How has the Salvation Army benefitted you, Mr. Average Citizen? Less money has been taken from your pockets by taxation because of this Army's prevention of crime and reconstruction of the criminal. Your streets have been cleared of beggars and thugs and made safer for your wives and daughters because of the food and

# LACK OF MINERALS CAUSES DISEASE

The famous author, Rex Beach, some time ago published a very interesting article explaining this vital matter, also the discovery made by a famous Physician, Charles Northen, M.D., regarding the lack of Mineral salts in our every day foods, and the consequent serious effect on human health.

## NO MAN CAN EAT ENOUGH

Most people think that all fruits and vegetables contain the necessary nutritive properties for health and vigor, but the fact is as pointed out by Rex Beach, no man can eat enough fruits and vegetables to supply his system with the Minerals required to maintain perfect health.

## FOOD DEMINERALIZED

Mineral-salts as supplied by Nature are the foundation of all life and vitality in the human body, and it is a scientific fact that millions of acres of land on which fruits, grains and vegetables are grown is deficient in these vital elements. The result being that our bodies are actually starving for these Mineral substances which form the whole basis of the cell structure.

## MOTHER NATURE DOES PROVIDE

The genuine healing and vitalizing action of Mineral Medicinal Springs has been known for centuries—both as a preventative against disease and in giving definite relief from ailments on the human body. People travel across Continents on the advice of Physicians, to take advantage of these Springs.

## LANG'S MINERAL is NOT a patent medicine

It has been used for over fifty years, and has proven a blessing to thousands of people after years of suffering by assisting nature to do her own wonderful work in the human body. Don't suffer with indifferent health. Write us for free information.
