HIGHWAY PROBLEM

We were glad to hear from H. G. Perry, member of the Legislature for Fort George, that he supports the building of the highway into Prince Rupert. He also says that the people along the highway even south of Prince George realize it would be a great thing for the whole country to have Prince Rupert opened out by highway through the interior.

Mr. Perry says that the Dominion Government recognizes this as a main arterial highway and should pay half the cost of the work. The next thing for us to do is to carry on the campaign in the south to interest them in the building of the road and show them that it is to the benefit of the whole province to have it carried out. Any government that undertakes this work will have to have the support of the whole province.

We shall have to admit that the roads in the south need paving and some of them need it badly. We must also admit that highways there are used a great deal more than in the north and they have the first call on the highway funds of the province. Very soon, however, the highways there will be in good shape and all they will require is a reasonable maintenance fund. Then we ask that attention be given to the north, not in the way of providing a meal ticket for a few unemployed, desirable as that is, but in the way of getting our highway connected up with the outside.

At the rate of a mile a year it will take eighty years to make the connection. This will not do. There must be one or two big contracts let to complete the whole work within a reasonable time so that people now alive may look forward in the expectation of taking a ride over the road to Terrace and on to the south when desired.

It is our opinion that Premier Pattullo is the most able man we have in the province and he is the man best capable of tackling this big job and carrying it through. However, if he does this, he will have to receive the backing of every part of the province so everything we can do to spread the gospel to the south is so much in favor of the highway. We have no sympathy at all with those men who see in this highway an opportunity for political intrigue. If the highway is not built when the present government goes out of power, we shall take the same stand with the next administration if it is a capable one. We have now a capable administration led by a man who is doing things and getting them done. Let us back him and also urge that the work proceed at the earliest possible opportunity. Let us bring every possible pressure to bear on every possible occasion. We have waited twenty-five years and have not yet started. The time is coming, and that soon, when the force of public opinion will be such that the work will have to be done.

If you have something to sell, a classified advertisement in this paper will soon let you know if there is a buyer in the city.

'SPORT'

JAPANESE EASY WIN

Canadians Only Won Single Set in Zone Play For Davis Cup Final

MONTREAL, Aug. 1: (CP)—Jiro Yamagishi defeated Doug Cameron 6-4, 6-1, 6-0 and Fumitero Nakano defeated Bob Murray 6-4, 6-3, 6-0 on Saturday to give Japan a clean sweep in the Davis Cup tennis series with Canada. Japan had previously won the first two singles and the doubles. The Canadians won only a single set throughout the round.

Off To Attend B. C. Convention

Employment of Veterans is Still An Important Problem

To attend the provincial convention of the Canadian Legion of the British Empire Service League to be held in Vancouver August 4-6, Jack Preece, president of the local branch of the Canadian Legion, is leaving on the Prince Rupert this afternoon.

The convention will occupy three full days and much of the time will have to be taken up with the consideration of the unemployment of employable ex-service men. This still forms the chief problem of the Canadian Legion. In spite of war time promises that the country would see that they were well looked after when they returned to the land for which they were fighting, there are many thousands of service men unemployed and many in dire need of the simplest necessities of life. It is for their less fortunate comrades that the Legion is making a decided stand, both in the Dominion and local field.

With their war time experience of what united action and co-operative effort did on the battle field still in their minds, the heads of the Legion, with the full support of hundreds of thousands of their members, are confident they will be able to force a hesitant government to carry out their war time promises.

Other delegates from Prince Rupert are J. S. Wilson, zone representative for Northern British Columbia, who left Saturday afternoon on the Princess Alice, and D. C. Schubert and G. J. Dawes, who are already in the south.

YANKS ARE MOVING UP

Take Doubleheader on Sunday And Are Two Full Games Ahead Of Cleveland Indians

CHICAGO, Aug. 1: (CP)—As a result of winning a double-header victory over Chicago White Sox yesterday while the second place Cleveland Indians were held idle by rain, the New York Yankees bettered their margin of leadership in the American League by one full game and are now two games on top. The Detroit Tigers' double-header victory over the Philadelphia Athletics on Saturday put them into fourth place ahead of the Washington Senators.

With Pittsburgh Pirates and New York Giants both losing yesterday there was no change in the situation in the National League in which the Pirates are now five full games out on top.

Week-end Big League baseball scores were as follows:

SUNDAY National League St. Louis, 2-2; Boston, 3-3. Chicago, 3-4; Philadelphia, 6-1. Pittsburgh, 3; Brooklyn, 4. Cincinnati, 7; New York, 6 (eleven innings). American League Boston, 6-2; St. Louis, 7-10. New York, 5-7; Chicago, 1-3 (second game fifteen innings). Philadelphia at Detroit, Washington at Cleveland, rained out. SATURDAY National League Cincinnati, 2; New York, 3. Pittsburgh, 5; Brooklyn, 2. St. Louis, 8; Boston, 2. Chicago, 4; Philadelphia, 5. American League New York, 9; Chicago, 6. Philadelphia, 7-7; Detroit, 10-8. Washington, 5; Cleveland, 8. Boston, 5; St. Louis, 4.

TED ADAMS NEW CHAMP

American Captures Canadian Amateur Golf Championship, Somerville Losing in Final

LONDON, Aug. 1: (CP)—Ted Adams of Columbus, Ohio, defeated Sandy Somerville of Canada on the thirty-ninth green Saturday to win the Canadian amateur golf championship.

LOCAL NEWS

Frederick D. Howlet was fined \$25, with option of seven days' imprisonment, by Magistrate McClymont in city police court this morning for drunkenness.

Dr. W. A. Clemens and Dr. A. L. Pritchard of Nanaimo Biological Station, who arrived at the end of last week from the south and have been at Lakelse Lake since then are leaving Terrace on this evening's train for Topley whence they will go into Babine Lake. They are accompanied by John McHugh, former hatchery engineer for the fisheries department.

Miss Audrey Viereck, Miss Thelma Rysstad, Miss Thelma Skoog and Miss Jean Dalzell sailed Saturday night on the Prince Charles for Shannon Bay where they will be employed in the B. C. Packers cannery.

Misses Ruth and Beverley Nelson and Donald Nelson, children of Mr. and Mrs. W. J. Nelson, sailed Saturday night on the Prince Charles for a visit at Tiell.

L. S. Hope, assistant district forester, sailed Saturday night on the Prince Charles for a trip to Cumshewa Inlet and other Moresby Island logging points on official business.

The Letter Box

PARRY PASS FISHERMAN'S VIEWS

Editor, Daily News: Your correspondents in defence of the removal of herring from the Langara Island salmon grounds seem to have their own little differences. Mr. Skog says that he seines the herring principally for bait, while Mr. McLean says they are for chicken feed, etc. If the latter is correct, and he probably is, we agree that the herring will become human food via the chicken, but would point out that if they are left there they would become human food via the salmon and we'll still have the salmon to fish indefinitely.

This committee had not thought to continue this correspondence but we feel that your readers may be misled by some of Mr. McLean's cleverly put statements.

To demonstrate the smallness of the operation, he remarks that only a few hundred tons have been taken and only one seine boat has been fishing there. On the other hand he says that it is an industry to be considered as well over a \$100,000 have been spent in the Prince Rupert district alone by it.

We think that he must be referring to the expenditures of his whole operation, herring coming from other places and not merely from Langara Island, the only district with which this committee is concerned. As we are fighting against the removal of salmon feed from this one small spot and not against the reduction of herring in general, we feel that two and a quarter columns of Mr. McLean's

letter are wasted as far as the fishermen are concerned, but may mislead many of your readers. What streak of perversity is it that causes Mr. McLean to send his seine boat to the only place we ask him to keep away from, when he has by his own admission, huge areas where schools sixty miles across exist to fish in?

A number of Mr. McLean's statements sound phony to fishermen. To attribute the small herring catches to exposed waters and heavy weather makes us smile. We don't see Mr. Skog do all his fishing in water that is sheltered at least 10 per cent. of the fishing season. We think the poor fishing is due to small schools.

When the local salmon buyers hear that only two dozen spring salmon have been caught in the seine we are sure that they will enjoy a quiet chuckle and that the companies are co-operating closely with the Fisheries Dept. we can quite believe. Some cases come to court a few years ago which gave us an inkling of that.

The North Sea situation is an entirely different one which we do not care to go into. It is sufficient to say that in those waters there are no salmon runs to deplete and the herring is a primary, not a secondary fish as it is here.

However, in spite of the widows and orphans who are holding out their hands for dividends from the B. C. Packer's Benevolent Society we would like our salmon feed to alone.

FISHERMEN'S COMMITTEE Chas. Valley, chairman Parry Pass, B.C.

Be wise. H.A.C. the want ad.

GAME BIRD PROPAGATION

Prior to 1934 the Game Department operated its own farm near Victoria for the purpose of raising pheasants and other game birds for release in different sections of the Province. Since 1934, however, operations of this farm have been considerably curtailed and a policy of encouraging local residents to raise pheasants for sale to the Department has been put into effect. This policy has resulted in a decided increase in the total number of pheasants liberated each year, as follows:

Table with 2 columns: Year and Number of pheasants liberated. 1933: 2,906; 1934: 6,139; 1935: 6,795; 1936: 9,539; 1937: 12,306.

In 1938 to date, 3,329 pheasants have been liberated and within the next month a large number of healthy and strong young birds will be purchased and liberated in different sections of the Province; these liberations continuing until the 15th of September.
