Reactions Of British To Munich

OCCUPATION PROCEEDING

Makes Triumphant Entry of
Sudetenland Today—Heinlein
Named Commissioner

Polish Take Over

March Into Teschen—
Settlement With Hungary
Coming

PRINCE GEORGE, Oct. 3: (CP)—While German Nazi troops proceeded with the occupation of Sudetenland today and according to schedule, Chancellor Adolf Hitler today made a triumphant entry into Eger and received an enthusiastic reception. Meantime, Konrad Henlein, leader of the Sudeten German party, upon whom Hitler has bestowed the title of Reich Commissioner, re-entered his home town of Brno. He also was accorded a vociferous welcome.

May Go To Rome

After personally assuming power over the former Czechoslovak territory after a triumphant military procession, Hitler declared: "I will take this land to be torn from the Reich." Following his army through the heart of Sudetenland, he made two stops to accept the leadership of all Sudeten Germans and invite them to join "our great German future."

With the occupation of the first "autonomous" zone to be ceded Germany, the Nazis started today to move over the second. Clock-like precision marks the occupation and the demonstrations of popular enthusiasm.

Polish Taking Over

Polish troops entered the city of Teschen, which had been ceded to Poland, yesterday. The soldiers carried flowers across the frontier and were received with scenes of enthusiasm.

The first day of the Polish occupation of the Teschen area, given up by Czechoslovakia, passed in perfect order. The first contingent of Polish troops crossed the bridge over the River Olsa into Czechoslovakian part of Teschen at 2:05 p.m. Sunday. The Polish took over the post office in Teschen but Polish civil authorities did not at once assume administrative duties.

Yesterday the Czechoslovakian government sent a note to Hungary voluntarily offering peaceful settlement of that country's territorial claims.

Prague was bright with lights again last night after having been dark for several nights in fear of air raids during the war crisis.

ALBINO CARIBOU

Dr. Henry Bugbee of New York Bags Rare Creature

WINNIPEG, Oct. 3:—When Dr. Henry G. Bugbee, New York, was hunting at Jasper a few days ago, he saw an albino caribou, a rare and beautiful creature with white skin and pink eyes. He shot the freak, which he claims is only seen about once in 20 years.

"Now I am quits with the hunter who bagged a white giraffe in Africa recently," he remarked when he passed through Winnipeg on Canadian National lines.

LONDON, Oct. 3: (CP)—The price of war bonds in London was up 29c at the end of the week, being quoted at \$35.11.

Big League Baseball Season Concludes and Stage Is Set For New York-Chicago Series

Bob Feller Sets New Major League Record for Strike-Outs in Single Game But Cleveland, Nevertheless, Loses

NEW YORK, October 3: (CP)—The curtain rang down on the 1938 Big League baseball schedules yesterday and the stage is now set for the World Series opening at Wrigley Field in Chicago on Wednesday between the New York Yankees and the Chicago Cubs, winners in the American and National Leagues respectively. Odds are heavily in favor of the Yankees to win and thus capture their seventh world championship.

PASSING OF PROMINENT EDUCATOR

Dr. Arthur Stanley Mackenzie Left Lasting Monument in Dalhousie

HALIFAX, Oct. 3: (CP)—Dr. Arthur Stanley Mackenzie, president of Dalhousie University from 1911 to 1931 and member of the Nova Scotia economic council, died here Sunday after a brief illness.

It was given to Dr. Mackenzie to build his own monument—a new Dalhousie University. During his 20 years as president of the "Little College by the Sea," Dalhousie witnessed a new orientation. It grew under Mackenzie from a provincial college to an institution with a national outlook and national mission.

"It may be said of him," declared Dr. Archibald MacMechan in conferring an honorary degree on the retiring president in 1931, "that he found Dalhousie brick and left it marble." The almost spectacular growth of the university began when he assumed the office of president in July, 1911 and continued throughout his long term. He was the mainspring of every endeavor to enlarge its usefulness and to develop and expand its facilities.

The first alumnus to become president, he found it a college of one brick building with small invested funds and with physical assets valued at less than \$500,000. During his term of office, the medical school, the law school and dental school were reorganized and incorporated and won high international reputations; the arts and science faculties were enlarged and departments of commerce, engineering, pharmacy, music and fisheries added.

Students increased in number from 411 in 1911 to nearly 1,000 in the year he relinquished office and the staff increased from 63 to three times that number.

Under Mackenzie a new university campus, Studley, one of the most beautiful in Canada, became the site for the New Dalhousie. Buildings of native stone with architecturally pleasing facades arose. The university grounds, buildings and equipment took an accrued value of more than \$2,100,000 and the invested funds aggregated \$2,400,000.

For many years he played a large part in the annual Conference of Canadian College Presidents which shape and direct the educational policies of the whole country and he also added greatly in founding and manning the National Council of Scientific Research.

Nova Scotia Born

Dr. A. Stanley Mackenzie was born in Pictou in 1865 and was the sixth College President that little Scottish county gave to Canada.

The gratifying sum of \$146 was realized as a result of the tag day on Saturday in support of the Boys' Club work.

Bulletins

JACKSON HEADS PASTORS

Rev. J. C. Jackson, First United Church, was this morning elected president of the Prince Rupert Ministerial Association with Rev. E. E. Brandt, First Baptist Church, secretary. The annual Week of Prayer will be observed starting January 3 and during the winter there will be discussion of the Oxford Conference report led by Rev. E. E. Brandt. The Canadian National Railways will be asked to bring the steamer Prince Rupert in on Sunday mornings next year in time for the tourists to attend morning service.

BROKER IS MISSING

VANCOUVER — The 32-foot auxiliary sailboat Marlin I was found on its side on a beach near the Kitsilano section of Vancouver today and the owner, John William McDougall, managing director of General Securities, is reported missing.

MANY ARABS ARE KILLED

Serious Clashes are Continuing in Holy Land With British Soldiers and Police

JERUSALEM, Oct. 3: (CP)—Serious strife, with new violence, still continues in the Holy Land. Sixty-eight Arabs were killed on Saturday in clashes with British troops and police and since then 38 more persons, some Jews, have been slain. Many others were injured.

Six Arabs were killed when a Jaffa house was blown up by a bomb.

Twenty Jews were slain and three wounded when an armed band of Arab rebels raided a suburb of Tiberias on the Sea of Galilee. Six raiders were killed in Tiberias itself. Six armed men were also killed by Jewish constables.

Corporal Soles Moves To Hope

Local Officer Transferred South in Provincial Police Service

Corp George H. Soles, for the past four years a member of the city police force here and for eight years prior to that at Prince George and Giscome, has been transferred to Hope in the Fraser Valley. With Mrs. Soles and family he will leave later this week for his new post in the south.

WHEAT PRICE SLUMPS

WINNIPEG, Oct. 3: (CP)—The Winnipeg price of wheat has been slumping since the settlement of the European crisis. Futures were down 2½c to 2¼c at the week-end with October at 60½c.

J. W. McKinley, well known pioneer of the city, sustained serious injury Saturday morning in a fall from the peak of the roof of the residence of J. C. Gilker, Fourth Avenue East, which he was repairing. Mr. McKinley slid down the roof and struck a scaffold before dropping to the ground. He suffered concussion from striking the back of his neck as well as bruises. An x-ray examination disclosed no broken bones although there is temporary paralysis as a result of the spinal concussion. He is a patient at the Prince Rupert General Hospital.

BAR SILVER

NEW YORK, Aug. 18: (CP)—Bar silver was unchanged at 43¾c per fine ounce on the New York metal market today.

Interior Members Take Up Fight For Greater Use Of Prince Rupert In Shipping

MORE GRAIN COMING

While no official word is available, it is understood here that activity at the local elevator may be resumed before long. Report has it that the plant is shortly to be filled with grain from the new crop on the prairies. There is no information here as to a new leasing of the house which was dropped by the Alberta Wheat Pool last summer.

PRINCE GEORGE, October 3.—During a recent visit to Vancouver, H. G. Perry M.L.A., accompanied by J. G. Turgeon M.P., held a conference with Mr. McIvor, of the Canadian Wheat Board and Mr. Glendenning of the Empire Shipping Company, on the matter of increased use of the Prince Rupert grain elevator and the port of Prince Rupert.

As a result of the conference Mr. Turgeon has approached the federal government through Hon. Ian A. Mackenzie with suggestions that arrangements be made to further ocean trade between Prince Rupert, the Orient and the ports of Great Britain through the transport of the fish for which Prince Rupert is famous and a portion of the Alberta and Saskatchewan grains, by ship subsidies if no other means are available.

Mr. Turgeon points out that while large quantities of grain which naturally should go to market by Pacific coast ports are being shipped eastward by rail because of the fact that Vancouver elevators are taxed to capacity, Prince Rupert's government elevator is standing idle.

Mr. Turgeon further suggests as a means of making use of the Prince Rupert elevator that the North China subsidy granted for shipping between Vancouver and North China, which has been interfered with by the present state of war in China, be switched to subsidize steamers in carrying grain and other commodities from Prince Rupert to the United Kingdom, so that with full cargoes of grain assured Prince Rupert would soon take her place among the busier ports of the Pacific seaboard and bring into profitable operation the government's large investment in the presently idle Prince Rupert elevator as well as its line of railway through northern British Columbia.

Hanson Appreciative

Olof Hanson M. P. for Skeena, interviewed in Prince George was appreciative of the co-operation from this district. For some time he has been trying to get a subsidy on shipping from Prince Rupert to the U.K., so grain can be marketed through that port. He and George Nickerson of Prince Rupert, got an unanimous resolution passed recently at the Central B. C. Associated Boards of Trade convention at Smithers requesting the federal government to subsidize six sailings per year at a total cost of \$60,000.

"In the national interest of Canada, I am firmly of the opinion the government should not only subsidize shipping from Prince Rupert during the development of the traffic, but develop the use and facilities of this all year round port," stated Mr. Hanson.

MESSAGE TO HIS PEOPLE

King George Praises Subjects—Chamberlain Faces Criticism—May Visit Italy

Munich Defended

Duff-Cooper Explains Why He Resigned From Cabinet

LONDON, Oct. 3: (CP)—In a message to his subjects yesterday, King George VI praised the people for their fine spirit of calm resolve during the anxious days of the war crisis. He expressed confidence that the new era of hope and peace for the world would ensue as a result of the fine efforts of Premier Chamberlain for peace.

With the applause of the Empire still ringing in his ears for the averting of what seemed imminent war last week, there were some black clouds on the horizon for Premier Chamberlain today as he made his stand before Parliament to defend the foreign policy of his government. He faces the prospect of a solid Labor opposition as well as defection among some important members of his own Conservative party.

Hopes of Premier

Addressing a tumultuous house, Mr. Chamberlain declared that fresh opportunities for disarmament had been opened as a result of the four-power Munich agreement. Firm in his defence of the Munich negotiations, Chamberlain stated, however, that "disarmament on the part of this country will never again be unilateral. We tried that once. It nearly brought us disaster. If disarmament is to come, it must come by steps and with active co-operation of other nations." The Prime Minister said that Great Britain would continue to build up an efficient army and defenses but believed that eventually disarmament would be possible as a result of the Munich conference.

Continuing, Mr. Chamberlain said that hope still remains that there was time for him to conclude a disarmament agreement "before I hand over office to a younger man."

The Premier's speech was punctuated by jeers and laughter from opposition Laborites.

The Prime Minister announced that an immediate loan of \$50,000,000 would be made to Czechoslovakia which had applied for a loan of \$150,000,000. The loan may be increased after British experts have studied the economic needs of the Czechs.

The day in Parliament was started with Rt. Hon. Alfred Duff-Cooper who resigned from the cabinet as First Lord of the Admiralty defending his action. He stated that there was a basic difference of opinion between Premier Chamberlain and himself. He (Duff-Cooper) believed in dealing with dictators with a mailed fist. Chamberlain believed in "reasonableness."

It is forecast that the Premier may make a trip to Rome shortly to confer with Premier Mussolini on the settlement of the Spanish civil war question, more particularly with regard to the withdrawal of Italian volunteers. A revival of the Anglo-Italian pact is foreseen.

A new pledge of friendship between Great Britain and France has been made.

MODEL STUDENT

BIRCH HILLS, Sask., Oct. 3: (CP)—Never absent and never late in eight years in public school is the proud record of Gordon Grambo of this town 25 miles east of Prince Albert. He enters high school this fall.

FROG STOPS MOWER

SCANTERBURY, Man., Oct. 3: (CP)—John Kubaha of this town 45 miles north of Winnipeg claims a five-pound bullfrog leaped on the knives of his mower during harvesting operations this fall and stopped the machine.
