Should Be Early Spring; Smithers Winter Is Fine

SMITHERS, Feb. 4: - If any groundhogs came out to look at the weather in this district on Wednesday, as they are supposed to do, Mrs. Humphrey Davis Elected Presithen there should be a fairly early spring as the day was cloudy and dull throughout and it would be hard to find any shadows from even prophesying groundhog.

The "oldest inhabitants" of the Bulkley Valley don't go much on the groundhog theory, in any case. chiefly because there are no groundhogs in the district and also because there is always just about so much winter anyway and, taking one year with another, there

is not a great deal of variation. The present winter has, however. been about all that could be de- Morven. sired, taking everything into consideration, and it is found that too mild weather here in the winter Scodane and Mrs. Anna Tait. time is very conducive to colds and other maladies which are noticeably absent when the weather remains fairly cold and steady.
