INTERESTS ALD. H. DOUGLAS

(Continued from Page 1.)

to adopt the fiscal agency system of supplying their financial needs. The well posted bond house knows immeasureably more about practical finance than does the average alderman who sits at the Canadian municipal board, although many score of aldermen from the Atlantic to the Pacific would be loath to admit this. There are far too many aldermen in Canada today cooly and brazenly sitting at municipal council boards and administering hundreds of thousands of public moneys who have failed most lamentably in their efforts to run corner grocery stores on their own account. And even the hundreds of capable Canadian aldermen cannot be expected to keep in close touch with the investment markets or generally to play the part of financial experts.

Applies to Rupert.

"This brings into bold relief the outstanding advantage of the fiscal agency system; the city which has a fiscal agent has the benefit of expert counsel which it could not secure from bond houses whose aim would be to buy the city's bonds as cheaply as possible and sell them at the highest possible figure. If the fiscal agent is a bank—so much the better for the city in times of adverse market conditions. The bank will say to the city: 'The market is in pretty bad shape just now. You had better hold this bond issue for six months and you will get a better figure for it.' And the city will reply, with a polite bow: 'Certainly, we will act upon your suggestion; and, of course, you will have no objection to advancing us the money right away, and "carrying" us for the six months?'

"Of course the fiscal agency system has yet to prove its worth in Canada. And there are not a few bond dealers who are persuaded that this system will not net the municipality any higher range of prices over a period of years than does the good old competitive tender system.

Increased Interest Yield.

"The year 1911 attests what has long been apparent—that the interest yield on Canadian municipal debentures is tending upward slowly, but none the less surely. Only six or seven years ago debentures of Canada's leading cities yielded only 3¾ or 3⅞ per cent.; now the same debentures may be purchased to yield 4⅛ and even 4¼ per cent. Large Ontario town and township bonds sold to yield 4 and 4⅛ per cent. half a dozen years ago; bonds of this class are now available in abundance at a rate to yield 4¾ per cent. And the same tendency toward a higher yield is noticeable in all classes of municipals.

"The spring outlook of the municipal bond market is decidedly good, but it is not improbable, according to the opinion of many leading authorities, that in the long run Canadian municipalities will have to become reconciled to paying even more for their loans. This advance in yield will, of course, reach a point which will cause municipals, with their incomparable security, to attract much of the money that is now going into industrials and western land mortgages."

For Rent

FOR RENT—Two rooms, over Wallace's. Suitable for offices or apartments. Apply H. S. Wallace. 181f

Insurance

OUR Companies are noted for prompt and just settlements. We write every known class of Insurance. The Mack Realty and Insurance Co.

FLORIDA—Learn about Madison county first. Warm winters, cool summers. Lands similar to Illinois, Ohio, but better, cheaper, for general farming, stock raising, fruit, vegetables. School, churches, railroads. Free booklet. BOARD OF TRADE, Madison, Florida. 2t

SEED GRAIN SENT FREE

Dominion Government Will Supply Seeding Samples to Skeena River District Farmers to Test Fertility of the Soil.

By instructions of the Hon. Minister of Agriculture a distribution will be made during the coming spring of superior sorts of grain and potatoes to Canadian farmers. The samples for general distribution will consist of spring wheat (5 lbs.), white oats (4 lbs.), barley (5 lbs.) and field peas (3 lbs.). These will be sent out from Ottawa. All samples will be sent free by mail.

Applicants should give particulars in regard to the soil on their farms, and should also state what varieties they have already tested and in what way these have been found unsatisfactory so that a promising sort for their conditions may be sent. Each application must be separate and must be signed by the applicant. Only one sample can be sent to each farm. Applications on any kind of printed or written form cannot be accepted. As the supply of seed is limited, farmers are advised to apply early to avoid possible disappointment. No applications can be accepted after February 15th. All applications for grain should be addressed to the Dominion Cerealist,, Central Experimental Farm, Ottawa. Such applications require no postage.—J. H. Grisdale, director Dominion experimental farms.

PHONE ACROSS GREAT OCEAN

Germany to Telephone to Canada Soon by a New Wireless System Revolutionizing Present Conditions.

London, Jan. 28.—Telephonic communication between Germany and Canada by means of a new system of wireless telephony is claimed to have been established by a German post office engineer, F. Kiebitz, who has been experimenting with a directive system originally worked out by Professor Zonder. Herr Kiebitz described his experiments at the Deutsche Physikalische Gesellschaft, and his process appears to be likely to prove of considerable success.

The distinctive feature of the system is that the electric impulses are transmitted through the earth, so that no aerial wire or antenna is employed; a special type of generator is used, which gives alternating current of a frequency of about 100,000 cycles per second; the transmitting instrument is connected by two wires of a certain fixed length to two plates placed in the earth, the distance separating these plates depending on the apparatus, and being equal in length to half that of the waves transmitted. A similar arrangement is used to pick up the waves, and either telegraphy or telephony can be carried on.

This system is similar in its main principles to the earth-wave system of Prece, which has been somewhat improved recently.

An Apropo Quotation.

"Most wretched men
Are cradled into poetry by wrong;
They learn in suffering what they teach in song."
—PERCY BYSSHE SHELLEY.

Even a pretty girl has to be careful when she eats soup.
