DAILY EDITION.

WEDNESDAY, FEB. 7

ANOTHER JUMP IN HIGHER CRITICISM.

In our news columns you will have read of the discovery that Bacon not only wrote Shakespeare—that is an old one—but that it is now claimed Bacon wrote the blessed old Bible we have had for several centuries. The "Higher Critics" who cannot believe the Bible will have their disbelief strengthened by this new yarn, which they will naturally hasten to believe, as it tends to justify their contention that the Bible is in many respects a myth anyway.

LOTS OF BLIND MEN IN POLITICS.

The Globe mentions, as a remarkable fact, that a blind man has been elected president of the North Renfrew Agricultural Society. There is nothing new in that, in view of our electing every day blind men to our legislatures and parliaments—men with vision closed to every consideration but that of party advantages—men who, at the call of party, will vote in repudiation of principle and solemn promises.

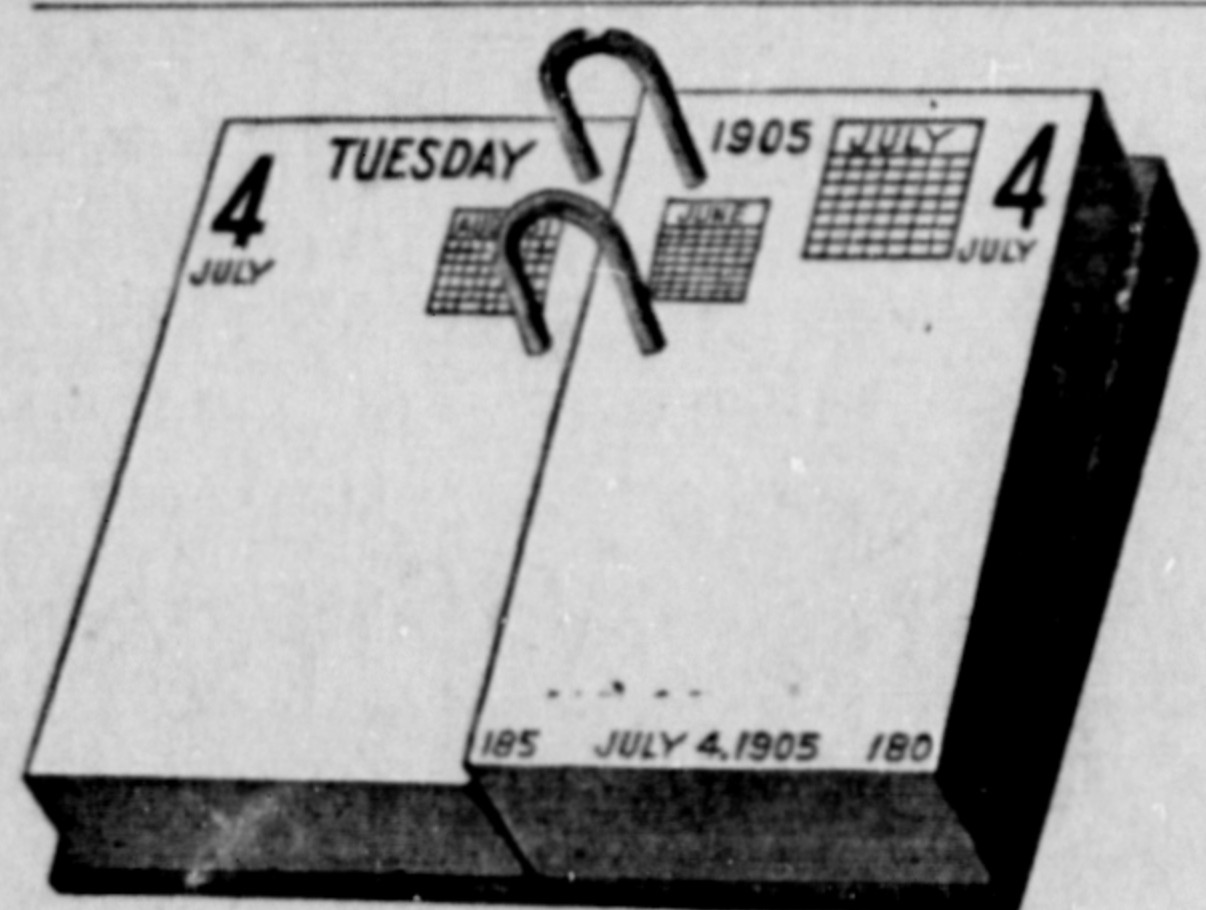

BURNING MILLIONS OF MONEY.

The fire losses in Canada during 1911 totaled \$21,459,575, an average of \$1,788,298 per month. This is equal to a daily loss of \$58,793. In other words, \$2,450 worth of property has been burned every hour that year, or \$41 every minute. In the past three years \$63,000,000 worth of property has been burned. This is an appalling fire loss, and little is being done to check such extravagant waste of capital.

"Montreal boasts of fully one hundred millionaires," says a contemporary. It is not much to boast of. If Montreal had no poverty, how much greater a matter for boasting that would be!

In our news will be found several items as to the growth of the fishing industry next door to us, so to speak. It is interesting to read of this progress for the reason that Prince Rupert will be the nearest port and supply point for all this Southeastern Alaska trade when the railway runs through trains next year.

No Man Need Use Poor Printing Unless He

is Willing

and Satisfied

...to Do So...

The man who is able to buy any kind of printing is able to buy good printing. If he uses anything else it indicates to people who see it that he doesn't care.

Most people would prefer a man's general character and personality to be in keeping with his printing—so it is disastrous not to care about your printing

COLD STORAGE AND CANNERY ENTERPRISES ACROSS BORDER

NEW ENGLAND FISH COMPANY PLANS LARGE COLD STORAGE PLANT AT KETCHIKAN—YAKUTAL CANNERY CHANGES HANDS—NEW CANNERY AT WARD'S COVE.

According to word received from the south by the last boat, says the Ketchikan Miner, the New England Fish Company intends to get in line with the rest of the industries of the region this year, and increase fourfold its cold storage plant here in Ketchikan, giving it the largest capacity of any American cold storage plant on the Pacific coast—Six million pounds of fish. This conclusion was arrived at after the arrival in the south of Manager Wilke of the local plant, and speaks volumes of the success of the plant and the judgment of those putting it in here.

From the fish standpoint, the year just closed has been a fight one, but the scarcity of fish at times and the resultant high price brought by that which could be put on the market at such times has demonstrated the advantage of the cold storage system, and the proposed improvement and remodeling of the Ketchikan plant is the logical sequence.

Cannery at Ward's Cove.

During the past week another industry has been added to the many now making Ketchikan and its vicinity their headquarters, the new one being the Moore-Walsh Canning Co. The incorporators are E. F. Moore and Richard P. and Michael Walsh. They have bought the Paul Hauri

place, consisting of 20 acres on the shore of Ward's Cove and will erect a cannery of about twenty thousand capacity at once, intending to have it in operation this coming season. Associated in the company are several other local people, who in the past have been interested in the fish business.

Purchase of Yakutat Cannery.

According to the Pacific Fisherman one of the most important deals in the cannery business of the winter is the purchase by the T. J. Gorman Co. interests of the Yakutat cannery from the Yakutat & Southern Railway. The purchase price has not been made public as yet, but the record of the plant is such that the sum paid was a good one. The cannery was established in the neighborhood of eight or nine years ago, and is especially valuable because of its large annual pack of red salmon. It has an annual capacity of 75,000 cases, and the catch in the region averages about 75 per cent. reds and the balance almost all cohoes, with a small sprinkling of humpbacks.

A strong government in Sweden with the cordial approval of the King announces that women are to have the right to vote on equal terms with men. Yet nobody seems to have been breaking windows in Sweden lately.

LAND LEASE NOTICE

Skeena Land District—District of Coast Range 5.
Take notice that I, Alfred Christian Garde of Prince Rupert, B. C., occupation mining engineer, intend to apply for permission to lease the following described lands:
Commencing at a post planted at the southwest corner of a small island about 27 1/4 miles east of Prince Rupert, thence north 40 chains, thence east 20 chains, thence south 25 chains (more or less) to railway grade, thence westerly 25 chains (more or less) following said grade to point of commencement and containing 70 acres more or less.
ALFRED CHRISTIAN GARDE
Date Jan. 31, 1912
Pub. Feb. 3, 1912

Skeena Land District—District of Queen Charlotte Islands.
Take notice that Arthur Tremaine, of Saanich, B. C., occupation farmer, intends to apply for permission to lease the following described lands:
Commencing at a post planted at the southeast corner, being eighty chains south of the northwest corner of Lot 1555, Masset Inlet, thence west forty chains, thence north forty chains, thence south eighty chains to the point of commencement, containing three hundred and twenty acres (320), more or less.
ARTHUR TREMAINE,
Municipal Agent,

Australian Government Curing Drink Habit Adopts Famous NEAL CURE
Sending Sunshine and Happiness Into Hundreds of Darkened Homes Instead of Inflicting Fines or Prison Cells Upon Her Unfortunate Citizens
The government of South Australia has set an example worthy of imitation by the other nations of the world. Owing to the extent, enormity and the awful consequences of the drink habit, they have for years past been investigating its cause, effect, treatment and possible cure.
In the year 1910 Rev. A. C. Rankine, commissioned by that government, visited the United States, and after a thorough investigation of drink habit treatments, returned to his government last September and gave a detailed and lengthy report recommending the adoption of the NEAL THREE-DAY DRINK HABIT CURE. The government of South Australia adopted his report, and established the cure in a large government sanitarium, where those addicted to the drink habit are treated at government expense, instead of being fined or sent to prison cells.
During the first ninety days 182 persons so affected were perfectly cured by the Neal treatment at government expense and restored to citizenship. In addition to this, reports show that more than double that number availed themselves of the Neal treatment in private sanitariums in Australia.
Scientific research and investigation of the centuries has recently culminated in the establishment of the fact that the drink habit, so called, is caused by the poison of alcohol stored up in the system by the long continued or excessive use of alcoholic liquors, and that the man or woman thus afflicted is as much in need of and must have medical help as if suffering from typhoid fever or other serious ailment. Dr. Neal has solved this problem. It has not only demonstrated the above, but he has found the drug which antidotes this poison, and, combined with other well known neutralizing and eliminating drugs, he has originated the Neal treatment, which, in thousands of cases, has perfected absolute and satisfactory cures in the short space of time of only three days.
The Vancouver Neal Institute is one of the many that is carrying on the good work, and grateful patients everywhere attest to the efficiency of the Neal Treatment.
If in need of help yourself or if you have a friend who is losing his grip write for booklet giving full information.
