Britain should be telling Hitler that if he does not keep his mouth shut he'll get a punch on the jaw.

Just on the eve of Hitler making a speech to the Reich he is told by Japan that he can't depend on that country for any European war. That is the sort of ally to have.

NEW AND BETTER

For the Halibut and Salmon Fleets

Following the investigations of the Fisheries Research Station, the Company has just completed extensive changes and improvements in ice storage and ice delivery methods.

Ice for the boats will all be old ice, thoroughly cured or aged at new low temperatures. It will be delivered into the hold, even in the hottest weather, as cold as the storage room.

Fishermen are invited to inspect the new system. Better ice than ever before, at no increase in cost, means economy to the boat and improved quality in fish delivery.
