standing personality.

Monday, June 5, 1939.

POWER OF PERSONALITY

Often in our national life we see the power of per- Acropolis-O'Neill c., Magnet p. sonality in swaying multitudes. Many of our political Bird 1b., Gillis 2b., Schaeffer ss., leaders have had wonderful personalities. There was Schaeffer 3b., Schaeffer, If., Clark, (CP)-A calf born here, weighing that splendid old father of Confederation, Sir John A. cf., Mentenko rf. Macdonald, and he was followed by that wonderful French so far this season in the softball ever born on the continent. The Canadian, Sir Wilfrid Laurier. Both rose to power league, is pitted against Moose to nimal is only 20 inches high. through their personalities. Now we find it exemplified night with Lipsett's taking on Three in the King and Queen whose personalities have captured. Two who tasted the dust for the Daily advertising in the Daily the people of Canada during their present trip. It is a first time on Friday night. The News is sure to bring daily rewonderful power. We saw it in Europe first in the rise standing to date is as follows: of Mussolini as a leading European statesman and then came Hitler, with a tremendous personality, much as many of us dislike it. We find it to a considerable extent in DeValera in Ireland and, according to political writers. Neville Chamberlain has it although in a totally different way. Any man to be a great leader must possess an out-

\$39 EVERY THURSDAY

Since the Townsend pension plan has been dropped the people of the state of California have worked themselves up into a state of something approaching mass hysteria over a proposal to pay every citizen \$30 every Thursday. So powerful has become the movement that Governor Olsen has promised to call a special election in order that citizens may express themselves in regard to the proposal. Where the thirty dollars is to come from nobody ond game called at end of third seems to know but, evidently, many of the people of the by Sunday law). state seem to think they will get it.

ALL ARE SELFISH

It is not only of recent years that people of all democratic countries have voted for what they consider will benefit themselves. For ages people have done that but there has been confusion of ideas as to what is good for people. Various 'isms have beeen propounded and people, have supported them but only in a moderate way. It remained for the province of Alberta to leave the beaten track and vote for social credit because the people were promised a regular bonus. Needless to say they did not get it. Then there was a scheme in the United States known as the Townsend plan which promised to provide Baseball Standings large pensions to retired workers after a certain age. It flopped because men behind it were dishonest. The very latest seems to be the Thirty Dollars Every Thursday scheme under which no person will get less than thirty dollars a week if the state can get the money to pay that amount.

We suggest that all the incomes in the country including the income of the banks would not pay all the people of the country thirty dollars a week for life. We have not worked this out ourselves but the statement seems reasonable. We have to distinguish between wealth and income. Wealth is mostly potential wealth and is not available for distribution until it is converted into income. It is income that pays the weekly wage. To say that a person is a millionaire indicates that he controls a million dollaars in potentiaal wealth from which he may derive a possible income of thirty to fifty thousand dollars a year, st. Louis But even that is a large income and only a privileged few are able to secure it. In spending that amount a number of other persons live comfortably so thata athe amount actually used by the man himself is very small. down 1c at \$34.83 per fine ounce.
