DAILY EDITION.

FRIDAY, FEB. 9

NATURAL RESOURCES SHOULD BE RETAINED.

At a dinner given in Chicago recently Thomas Alva Edison gave out the following pregnant prophecy:

"Within a comparatively short time coal will be virtually unknown as an article of common usage. It will become more of a curiosity, stored in vast power houses, its energy will be thereby disseminated.

"As the electric motor has but one movement—rotary—the time is coming when the electric motor will move the world. In a few years all of the railroad terminals of this country will be electrified. The main lines of railroad systems in mountain regions where there is water will also be electrified, and ultimately all lines of railroads will be propelled by this motive power.

"The time is not far distant when all traction vehicles will be operated by electricity."

Mr. Edison might have said further that most of the electric energy of the future will be obtained, not from the consumption of coal, but from the development of waterpowers.

They who own the waterpowers twenty years hence will own the world—which is why long-headed capitalists are making plans everywhere in Canada to secure control of our rivers. The stupendous scheme, outlined in a recent issue of the Manitoba Free Press, by which a group of speculators propose to secure the entire waterpower of the St. Lawrence in its ninety-foot fall from Lake St. Francis to Lake St. Louis, thereby developing one million horsepower at an estimated outlay of \$100,000,000, is the most striking evidence of what is going on in the minds of the captains of capital.

In this regard the lengthy bill considered by the Provincial Legislature last night for the better conservation and preservation of standing timber and the regulation of commerce in the products of the forests may be a step in the right direction.

HAVE YOU EVER STRIPPED

The lock work of a so-called machine made gun, built by the mile and cut off by the yard? While its exterior might pass muster the veriest novice would reject the crudeness of its interior. Now with a GREENER GUN inside and outside receive the same care, in fact, the gun is made under the direct supervision of members of the firm in the most completely equipped sporting gun factory in the world. The material is the best, the inspection in every stage is rigidly enforced, the experience is unrivaled and the whole forms the perfect gun—a GREENER. The only fault to be found with the Greener gun is that it lasts too long. Send for catalogue describing 38 grades from \$56 to \$1,000, mailed free.

No Man Need Use Poor Printing Unless He

is Willing

and Satisfied

...to Do So...

The man who is able to buy any kind of printing is able to buy good printing. If he uses anything else it indicates to people who see it that he doesn't care.

Most people would prefer a man's general character and personality to be in keeping with his printing—so its disastrous not to care about your printing

Australian Government Curing Drink Habit Adopts Famous NEAL CURE
Sending Sunshine and Happiness Into Hundreds of Darkened Homes Instead of Inflicting Fines or Prison Cells Upon Her Unfortunate Citizens

The government of South Australia has set an example worthy of imitation. Scientific research and investigation of the centuries has recently culminated in the establishment of the fact that the drink habit, so called, is caused by the poison of alcohol stored up in the system by the long continued or excessive use of alcoholic liquors, and that the man or woman thus afflicted is as much in need of and must have medical help as if suffering from typhoid fever or other serious ailment. Dr. Neal has solved this problem. He has not only demonstrated the above, but he has found the drug which antidotes this poison, and, combining same with other well known neutralizers and eliminating drugs, he has originated the Neal treatment, which in thousands of cases, has perfected absolute and satisfactory cures in the short space of time of only three days. The Vancouver Neal Institute is one of the many that is carrying on the good work, and grateful patients every day attest to the efficiency of the Neal treatment. If in need of help yourself or if you have a friend who is losing his or her health, write for booklet giving full information.
