NEW CHARTER FOR RAILWAY

Will Build from Edmonton to
Prince Rupert, Crossing the
Rockies at Laurier Pass, and
East to Hudson Bay.

A new point was placed upon
the map of Canada when the Rail-
way Committee of the Commons
incorporated the Pacific, Trans-
Canada & Hudson Bay Railway
Company. The company proposes to
build from Edmonton to Athab-
aska Landing, thence to Fort
McMurray, thence westerly to
Prince Rupert, and easterly to
Hudson Bay to either Fort
Churchill or Port Nelson. It is
proposed to use Laurier Pass to
get through the mountains. This
was the first time the members
had heard of this pass, and they
were curious to know where it
was. They were told that it was
north of Fort Grey.

Prepare Assessment.

By resolution of council last
Friday the City Assessor is in-
structed to begin the assessment
of the city and to have it ready
by April 1st.

NEXT GREAT FISTIC EVENT IS ON WASHINGTON'S BIRTHDAY

ABIE ATTELL TO ENTER THE RING AT LOS ANGELES WITH
JOHNNY KILBANE TO CONTEST FOR FEATHER-
WEIGHT CHAMPIONSHIP.

On Washington's Birthday, February 22nd, Abie Attell meets Johnny Kilbane of Cleveland at Los Angeles in a twenty round tilt at 122 pounds ringside for the featherweight crown.

"Tom O'Rourke says I am 'in,'" says the plucky featherweight. "I intend to convince the public in my next fight that I am the Attell of old and will not appear in the ring again until fit to do my prettiest. Of course, I think I am good enough to shade Kilbane, even with a bad hand, and

ABIE ATTELL.

I will be taking a chance, as he is a fast and clever boy. The next time Attell climbs through the ropes somebody is in for a licking. If Bonesetter Reese says I had better take a rest, then rest it is."

This statement was made by Abie Attell in Chicago just before he boarded a train for Youngstown, Ohio, to consult the noted bonesetter. Later a dispatch from the Ohio town brought the information that Reese had told Attell his thumb was badly staved, but no bones were broken, so Abie has taken the risk and left for the west.

It is no secret that Abie believes, veteran that he is, that he can beat any 122 pounder in the world with one hand, if he tries hard enough. The champion has no great respect for Kilbane, having bested him once in a ten round

battle at Kansas City. And the odds are 2 to 1 that Abie fights and licks Johnny, despite his determination to convince everybody that O'Rourke is simply wielding the hammer when he notches.

Attell while here took time to slip one under O'Rourke's belt anent the promoter's controversy with Jack Curley over the calling off of the Flynn-Palzer match. Palzer, the man who leaped to the fore by knocking out Al. Kaufman, is O'Rourke's white hope. Tom wants everybody to think that Al. is the real "bear" of the pale face scrappers, and, of course, Abie does not care to help him out any. Attell does admit, however, that Palzer is a good fighter, but says Flynn is his master. Here is the way he puts it:

"Palzer is a tough young fellow with a punch, but hardly a prospective foe for Johnson. This O'Rourke talk about Flynn being afraid to box Palzer is all bosh. The Pueblo man would beat Al. sure, on experience alone if nothing else. Palzer caught Kaufman when the big fellow was 'done,' after beatings by Flynn and Johnson. Palzer can fight, but he is in the Jim Barry class. My guess is that he will never be a champion."

"This fellow Carl Morris is coming along some and would make a great fight with Palzer. I handled Flynn in his Morris fight and was astonished at the beating the Oklahoman took without a murmur."

"He is game, is learning to box and will be a hitter one of these days. He may never get to the top, but there will be few above him in the heavyweight ranks after another six months."

Matched with Tommy Murphy.

San Francisco, Feb. 8.—Abie Attell, champion featherweight, and "Harlem Tommy" Murphy, who went twenty rounds to a draw here the other night with "One Round" Hogan were matched by Promoter Coffroth for a twenty round fight Saturday afternoon, March 9th. They will weigh in at 133 at 10 o'clock
