COLDS Don't Upset Stomach

By Drastic Dosing Taking strong medicines into the stomach for colds may add to the

misery by upsetting digestion. That's why I out of 3 Canadian mothers treat colds externally with Vicks VapoRub.

Just rubbed on throat, chest and back at bedtime, VapoRub acts on the skin like a warming poultice and -at the same time-gives off soothing medicated vapours that are breathed direct into the irritated air passages. Often by morning most of the misery of the cold is gone.
