PROGRESS OF CITY WORKS

City Engineer Reports to Council Last Night Regarding Activity on Pipe Line and New Fire Hall Completion.

Since the abolition of the office of superintendent of public works the onus of responsibility for the immediate execution of works in hand has rested with the Engineering department, and last night the Council asked Col. Davis to report on the urgent works in hand. Col. Davis mentioned that yesterday morning his assistant in charge of these matters had started two gangs of men, 34 in all, on the pipe line with the city limits, and more men will be started today. Regarding the completion of the new fire hall, about which the City Engineer was asked, Col. Davis mentioned that today he will have men at work laying the platform in front and making sewer connections. New tools for the day labor gangs have been purchased.

Round the World.

Under the new scheme the Marconi Company will be in a position to make enormous developments. While it is as yet impossible to give details it can be said that the contract entails a system of wireless communications throughout all British dominions throughout the world.
