## FOR AND AGAINST

There will during the next few months be a great many arguments for and against the trade agreements by which Britain, United States and Canada are bound together by a mutual economic arrangement. An effort is being made to show that the advantage is all to the United States and none to Canada.

The feature that is not pointed out by either side is that the arguments seem to assume that the former trade agreement with Britain would have gone on for ever. As For a matter of fact it was due for rewriting very soon and could not have continued without each party to the agree- File ment trying to get some advantage. This is an important Feb fact to bear in mind in all the discussions which are about From ·to take place.
