Smithers Pioneers Visit Vancouver

George Wall and N. P. Moran See Great Changes in Coast Metropolis

SMITHERS, Sept. 25.—Two oldtimers of Smithers have found time this summer to make a visit to Vancouver after a lapse of many years.

George Wall, one of the popular garage men of Smithers, passed through Vancouver in 1909 on his way to Prince Rupert and the Skeena River. Until his short trip south this summer he had never seen Vancouver since and he was astounded at the great change that had taken place there in the intervening years.

Saturday N. P. Moran of Smithers arrived back home from a month's trip to the south. This was the first time that Mr. Moran had seen Vancouver since 1912. He looked over the city for some of the familiar land marks that he had known in the early days but found it difficult to get his bearings there. He also was amazed at the progress of the city during the past thirty years.

HORRORS OF WAR

United States Ambassador To Poland Outspoken In Describing German Frightfulness

PARIS, September 25: (CP) — Describing graphically the frightfulness of the German war campaign in Poland, Anthony J. Drexel Biddle jr., United States ambassador to Poland, arrived in Paris yesterday from stricken Warsaw. He travelled by way of Roumania.

On the way out of Poland, Biddle's car was pursued by German bombing planes and machine-gunned and bombed. It was necessary aat times to get out of the car and take shelter.

Before leaving Warsaw, the villa in which he resided was deliberately bombed by the Germans, Biddle declares.

At least five thousand war planes must have been used by the Germans over Poland, Biddle says. Open cities and towns were attacked from the air regardless of civilian population and whether or not there were military objectives. Three hundred German planes are estimated by Biddle to have been brought down by the Poles.

DEATH OF DR. FREUD

Father of Pyscho-Analysis, Driven Out of Vienna, Dies In London

LONDON, Sept. 25: (CP)— Dr. Sigmund Freud, long known as "the father of psycho-analysis" but in later years more accurately described as "the prophet of the sub-conscious," died here yesterday of old age. His researches in the dim recesses of buried human thought brought him world-wide acclaim and many honors but in the end his religious heritage of Judaism made him a victim of nazi anti-Semetism after "anschluss" of Germany and Austria and on June 4, 1938, he fled his beloved Vienna to pass his final days in London exile.

Then 82 years old and afflicted with throat trouble which had bothered him since 1923, he arrived in the British capital virtually penniless. All his property in Vienna had been confiscated.

He left nazified Vienna, where he had lived for 78 years, to the accompaniment of scornful attacks upon his theories in the governmental-controlled press.

U.S. VETS IN SESSION

Suggested That Uncle Sam Would Be Doing Well To Look After His Own Defences

CHICAGO, September 25:—With some 250,000 delegates in attendance, the national convention of the American Legion is in session here. In view of the international situation and the European war, the proceedings are of a more serious nature than on some occasions in the past.

It has been suggested by the national president, Stephen Chadwick, that United States would do well to concentrate on building up her own inadequate defences instead of concerning herself so much in the exporting of arms. The convention appears to have an overwhelming peace and neutrality sentiment with "Keep America out of war" as its watchword.
