NEW AND BETTER

COLD CURED ICE

For the Halibut and Salmon Fleets

Following the investigations of the Fisheries Research Station, the Company has just completed extensive changes and improvements in ice storage and ice delivery methods.

Ice for the boats will all be old ice, thoroughly cured or aged at new low temperatures. It will be delivered into the hold, even in the hottest weather, as cold as the storage room.

Fishermen are invited to inspect the new system.
Better ice than ever before, at no increase in cost, means economy to the boat and improved quality in fish delivery.

HOSPITAL NEWS

The monthly report of Fire Chief H. T. Lock, presented to the hospital board at its meeting last night, stated that boiler rooms in both hospital and nurses' home were in good order. Housekeeping conditions were satisfactory and the Nurses's Home alarm system was in perfect order.

Apparently, it is still the intention of the hospital board to let revert to the city for taxes property on Overlook Street which it purchased some years ago for hospital building purposes. When a tax notice for $153.75, covering two years' taxes was presented at last night's board meeting, it was filed without action.

The Turnbull Elevator Co. had a letter before the hospital board at its meeting last night recommending a list of repair parts to be kept in stock for the hospital elevator and dumb waiter. It was referred to the house committee. Frank Dibb, chairman of the building committee, stated that the list suggested would cost almost as much as the elevator itself.

The Canadian National Railway Employees' Medical Aid Association had a letter before the hospital board last night requesting that orders for drugs for its patients be placed with W. J. McCutcheon who had agreed to give a ten percent discount. Some of the members of the board were not satisfied with the practicability of the proposal so the matter was referred to the lady superintendent, Miss Jean Harrison R. N., that it be complied with insofar as possible. There was a feeling that the hospital had no authority to assume any responsibility for the ordering of drugs for which it did not pay directly.

Miss Jean Harrison R. N., lady superintendent, reported to the hospital board at its meeting last night that everything was proceeding satisfactorily at the hospital. Gift orders for the new hospital were beginning to arrive those mentioned including Canadian Legion, Eastern Star, Cambrai, Queen Mary and Hill Sixty Chapters Imperial Order, Daughters of the Empire.

All indigents of over three hundred days' residence, not requiring active hospital treatment, have been now removed from the Prince Rupert General Hospital, it was reported at last night's board meeting. Elderly men of this category are comfortably located in the new civic home in the Dyer Apartments, it was stated.

Reporting for the Women's Auxiliary at last night's meeting of the board, Mrs. H. L. Landry stated that there were now funds available to furnish the auxiliary ward in the new hospital in time for opening. It had been decided by the Auxiliary not to hold a tag day this year but to have a bazaar instead.

Whether a new range, at an estimated cost of $450, should be placed in the new hospital or the old range repaired at a possible cost of $100 was a question which came up at last night's hospital board meeting. W. M. Brown, chairman of the house committee, doubts if it would be wise in the long run to repair the old stove which is pretty well burned out. The matter was left in the hands of W. M. Brown, chairman of the house committee, and Frank Dibb chairman of the building committee, with power to act.

Grounds of the new hospital building are now in process of being put in shape to fit in with the general atmosphere of the fine new building.

Members of the hospital board at last night's meeting had a demonstration of the house phone system it is proposed to instal in connection with the dumb waiter service in the new hospital.
