ARE IN BRITISH COLUMBIA

The King and Queen are in British Columbia and the Daily News joins with other newspapers in the province in bidding them welcome. We hope they will enjoy their stay and leave with very pleasant memories.

British Columbia is the only province in which the word "British" is used. It has remained from the first more British than the others and the capital is often spoken of as "A bit of England on the Pacific coast." However, there is not as much difference between the provinces as visitors would have us think. We feel sure the King and Queen will like Victoria and Vancouver and we wish they were coming here.

TODAY'S CELEBRATION

Prince Rupert is celebrating the arrival of Their Majesties in the province and we feel sure that those who do not go outside and make a noise will be wholeheartedly in in sympathy with the demonstration. The cyhildren at least will remember the event.

A LOCAL AIR MAIL

While the air mail as at present in operation is of, some value to Prince Rupert it is not as valuable as it might be. It is for that reason good news that this port will be included in the ports of call for an airplane service and possibly headquarters for the north Pacific Coast. While this service is not essential to our progress it will be valuable and appreciated when it comes.

NEW AND BETTER

COLD CURED ICE

For the Halibut and Samon Fleets

Following the investigations of the Fisheries Research Station, the Company has just completed extensive changes and improvements in ice storage and ice delivery methods.

Ice for the boats will all be old ice, thoroughly cured or aged at new low temperatures. It will be delivered into the hold, even in the hottest weather, as cold as the storage room.

Fishermen are invited to inspect the new system. Better ice than ever before, at no increase in cost, means economy to the boat and improved quality in fish delivery.
