Just Be Sure You Use "Aspirin" - Do it the Moment You Feel a Cold Coming on

The simple way pictured above often brings amazingly fast relief from discomfort and sore throat accompanying colds.

Try it. Then - see your doctor. He probably will tell you to continue with "Aspirin" because it acts so fast to relieve discomforts of a cold. And to reduce fever.

This simple way, backed by scientific authority, has largely supplanted the use of strong medicines in easing cold symptoms. Perhaps the easiest, most effective way yet discovered.
