DAILY EDITION. THURSDAY, FEB. 22

McBRIDE'S DICTATORSHIP NEAR AT HAND.

An evidence of how the people are to be bound and gagged if Dick McBride is again returned to power is found in the government organ this morning. It calls down this newspaper for a "presumptuous act" in printing yesterday a reference to the government wharf, and says we are butting in to the private business of the Property Owners' Association. It says: "Yet The News has the audacity and lack of all sense of shame in connection with its presumption in the matter to glory in what it has done."

It seems childish to answer what is apparent to everybody, that the government wharf is not a private matter but a matter of public interest. It has been called "The People's Wharf," was supposed to be presented to the people of Prince Rupert by the government to protect them from possible excessive wharf charges. And this is a newspaper of the people, by the people and for the people of Prince Rupert, and is not owned or controlled in any way by Dictator McBride.

Our reference to the tardy manner in which the construction of this people's dock has been carried on is described as "politics of the most petty ward type," but there is not a word in the whole of the long-winded article explaining why there has been so much delay in this public work, of which so many complaints have been publicly made. And we have no right to refer to the work at all in our columns, because, presumably, it is Dick McBride's private enterprise. This is a sample of what everyone must expect should the Two-Man government again be returned to power.

PROVINCIAL ELECTION NOW IN SIGHT.

The announcement that the Legislative Assembly will be prorogued before the end of the month squares with private advices to the effect that dissolution and a general election will follow immediately, the latter early in April. The present assembly was elected September, 1909, and has been in existence, therefore, not quite two years and a half. Immediate dissolution will reduce its term of existence below even the very low average duration, less than three years, permitted the legislative assemblies which have come into being during Mr. McBride's eight and a half years of office.

The present session will not have lasted fifty days, or about thirty-five working days, if it terminates at the time now scheduled. Of these about ten working days are left in which the different classes of business, any one of which ought to have at least that length of time devoted to itself, must be transacted if transacted at all.

The first of these is the budget; the second the new railway policy, and the third redistribution, which latter, however, is to go into the discard. Mr. McBride, as usual, will rush everything through and will throw his railway scheme at the heads of the people without giving them time to do anything but swallow it with their eyes shut.

The skeleton of a man who lived in England before one of the ice ages has been discovered in East Anglia. Its similarity to modern types seems to extend calculations as to man's age some hundred thousand odd years.

As Premier McBride once said, "the game is to get in, and when you are in to stay in."—And that is the way the game is being played. It is not what it is fair and right that the government should do, but what the government, by virtue of its overwhelming majority, can do, however tyrannical, that is done.—Vancouver World.

TUNNEL UNDER ST. LAWRENCE

From Longueuil or St. Lambert Underneath the River, the City and Mountain, Coming Out at Jacques Cartier.

Ottawa, Feb. 19.—A big scheme for a new tunnel in Montreal has been laid before the Right Hon. R. L. Borden, Hon. F. D. Monk and Hon. C. J. Doherty.

Briefly stated, the project is to construct a railroad tunnel from Longueuil or St. Lambert beneath the St. Lawrence and under the city and mountain, coming out at Jacques Cartier junction. A government subsidy toward the project is sought.

The company, it seems, has not yet been definitely formed, and before it is the promoters desire to have reasonable assurance of government assistance to the proposal owing to its unusual magnitude.

The tunnel would be used both for steam railways, thus connecting the lines of the north and south shores, and for the street railway service between the city proper and the suburbs on both sides of it, thus relieving the existing congestion in many quarters.

NOVEL LUNCH IN THE SKIES

Our Old Friend Dominic Is Not Much of an Orator but as a Ladies' Man and an Entertainer Rank High.

Vancouver, Feb. 20.—What is considered to be the most unique luncheon ever served in the annals of Vancouver building construction was partaken of by twenty prominent local business men on Saturday.

It was a real luncheon served in style by several uniformed waiters who performed their duties two hundred and twenty feet above the Granville street sidewalk and at this dizzy height the invited guests sampled the tasty viands provided by the Dutch Grill proprietors without experiencing anything like the sensations of the modern aviator.

The dining saloon was situated at the top of the huge steel and concrete skyscraper known as the Vancouver block, recently erected at a cost of \$750,000 by the Norton Griffiths Steel Construction Company to the order of Mr. Dominic Burns, brother and partner of Pat Burns, the great Western Canada cattle king.
