It is only in the larger cities that Japan is really in control and even there the invaders cannot venture far afield.

So keen are the Chinese that any Chinese man or woman who tries to help or co-operate with Japan soon meets with an accident.

The new highway being constructed from Burma into the heart of China is now practically complete and, with CLEAN, Well - furnished moder the coming of spring, ammunition and supplies will be rolling in from British territory on British and American trucks to enable the Chinese to continue the war indefinitely. ### MR. HERRIDGE'S STRAW MAN

Mr. Herridge is setting up a straw man in order to have something politically to aim at. He says that pretty soon the Liberals and Conservatives will join together to form a national government which will really be a Fascist Administration. In the first place we have noticed no inclination on the part of Liberals and Conservatives to join forces. Water and oil do not mix very well. Even if they did join, there is no reason to think there would be anything unconstitutional about their administration.

Mr. Herridge has some good ideas and we would like to see him taking part in public life but we doubt if he is a big enough man to form a new party. Hon. H. H. Stevens thought he could do it but he failed dismally. The present indication is that Mr. Herridge would cause scarcely a ripple on the surface of the political life of the Dominion. And vet it is difficult to prophecy in political life. Most unlikely things happen.

First, he wants to know what the money is to be used for. That's reasonable; and I tell him quite frankly all the details.

He wants to know how I propose to pay the money back. So, I give him a list of all outstanding bills, current expenses and my income. That gives him a clear picture of how I stand.
