### THIS MAN TAKES HIS OATH

The fisherman is known to be the most "exact" person in the world and some shooters can still draw the "long bow," but our customers are so convinced that

### THE GREENER IS THE WORLD'S BEST GUN

that they lose no opportunity of advertising this fact amongst their fellow sportsmen. Mr. Reddall, a merchant of Port Carbon, Pa., recently shot a crow with his 16 bore Greener gun at a distance of 312 feet, measured by a civil engineer, and he has sworn to his statement before Mr. W. U. Gane, J. P. Surely your new gun will be a "far killing" Greener, no other can give you the same consistent shooting combined with hard hitting and lasting wearing qualities.

Our new catalog P 8 describing 38 grades will be mailed free on receipt of postal.

## TALK THROUGH MILES OF ROCK

Sensational Discovery Made by English Inventor—Instrument Value \$48 Will Work Miracle of Telephony.

An English inventor, Grindell Mathews, with the aid of a \$48 instrument known as the aeropphone, has just succeeded in projecting the sound of his voice through material which the biggest steel projectile on earth would fail to penetrate. United States Consul General John L. Griffiths of London in a consular report says that Mr. Mathews was placed in the strong room of a big London commercial house and locked in with nine inches of armor steel, nine inches of fire brick and six feet of concrete between him and the outer world. By means of his small portable apparatus he carried on a conversation with an operator in another room on the farther side of the building. So distinct and faithful was the transmission that the experts in attendance were actually able to hear the tick of his watch, notwithstanding the almost impenetrable mass between the two instruments. The inventor contemplates a further test through five miles of solid rock. In speaking about the aeropphone, he said that vibrations produced in the air by his apparatus do not take the form of Hertzian waves, as in the Marconi system of wireless telegraphy. In fact, they are not waves at all, in as much as the disturbances are of such high frequency that there is no appreciable break between them and their action is rather continuous than fitful and separate, as in the case of Hertzian waves. It is estimated that a complete set of instruments by means of which it will be possible to carry on a conversation through walls, mountains or any other objects within a radius of five miles will cost \$48.

TERIE DESCH, CALIFORNIA'S WOMAN OLYMPIAN CANDIDATE.

San Francisco, Feb. 20.—This city makes a bid for Olympian honors, not only with Javelin Thrower Snediger, but with Mrs. Terie Desch, the beautiful water witch, whose swimming feats entitle her to serious consideration by the American Olympic committee.

Mrs. Desch is by far the best woman sprint swimmer on the Pacific coast and it is certain she can hold her own with any woman water speeder in this country, if not in the world.

Mrs. Desch has never had to extend herself to win a 50 or 100 yards dash. Her speed limit is an unknown quantity, but the human dolphins who splash about Surf beach say she can equal or lower the world's record for 75 and 100 yards, now held by Misses G. Smith and J. Fletcher of England. The time is :57 4-5 and 1:13 2-5 respectively.

Mrs. Desch has every right to extraordinary swimming ability. Her father, Captain Dickson, was a South Sea Islands trader and Mrs. Desch was born on one of the Marquesas. The lure of salt water has been in her blood since 'abhood and she paddled at an age when most kiddies are learning to creep. She swims as naturally as she walks.

The young woman, a goddess in a bathing suit, weighs 120 pounds, is 5 feet 3 inches in height and is a charming picture of physical perfection. Her ambition is to participate against the best women swimmers and divers of Europe in the Olympian contests, and she has commenced preparing herself already for the tryouts, which will be held here next spring.

### THE GRIM REAPER WORKS THROUGH NEGLECTED COLDS

A slight cold does not suggest serious danger, but the suddenness with which a slight cold becomes a serious cold leads to appalling consequences. A slight cold demands immediate treatment.

Mathieu's Syrup of Tar and Cod Liver Oil taken at the outset removes all possible danger. It heats the inflamed parts, strengthens the tissue and builds up the whole system to defy further attacks.

The Tar is the healing agent. The Cod Liver Oil the strengthening element; combined properly as in Mathieu's Syrup they are invincible. Large bottle 35 cents.

For sale at all dealers.

When headache and fever are present with a cold take Mathieu's Norway Powders to reduce the fever and allay the pain. J. L. Mathieu Co., Props., Sherbrooke, Que. (C)
