W. M. NEAL

VICTORIA, March 20: (CP)-"The facts are, leaving aside al aspects ,the development of Prince Rupert and Northern Columbia has been and is today a considerable factor in the opment of the port of Vancouver," said Premier T. D. Pattullo ommenting upon a statement by W. M. Neal, vice-president of the Canadian Pacific Railway, that the creation of the port of Prince Pupert was a major extravagance of the Pacific Coast. "We are going to ettle the railway situation in Canada by working ourves into a frenzy and tearing up rails," continued Mr. Pattullo. the railways are here to serve Canada. Until recently all that has then done in railway activities ever since Confederation, including the Canadian Pacific Railway, has been on the assumption of an increase in population. What the railways need and what Canada needs is more people. With more people there will be more business."
