THIS MAN TAKES HIS OATH

The fisherman is known to be the most "exact" person in the world and some shooters can still draw the "long bow." But our customers are so convinced that

THE GREENER IS THE WORLD'S BEST GUN

that they lose no opportunity of advertising this fact amongst their fellow sportsmen. Mr. Beddall, a merchant of Port Carbon, Pa., recently shot a crow with his 16 bore Greener gun at a distance of 312 feet, measured by a civil engineer, and he has sworn to his statement before Mr. W. U. Gane, J. P. Surely your new gun will be a "Far Killing" Greener, no other can give you the same consistent shooting combined with hard hitting and lasting wearing qualities.

Our new catalog P 8 describing 38 grades will be mailed free on receipt of postal.

REV. C. R. SING, B.D., PASTOR

Skene Land District—District of Cassiar

Take notice that Charles William Ham of
Vancouver, B. C., occupation inspector, intends
to apply for permission to purchase the following
described lands:

Commencing at a post planted at the con-
fluence of Blackwater river with the Naas river
about two miles south from the sixth Dominion
Telegraph cabin. Post marked C. W. H. S. W.
Corner, thence 80 chains north, thence 80 chains
east, thence 80 chains south, thence 80 chains
west to point of commencement, containing 640
acres more or less.

CHARLES WILLIAM HAM
Dated September 23, 1911.
Pub. Nov. 2.

UNIQUE FEAT OF ENGINEERS

C. N. R. Construction at Rainy
Lake is Fine Piece of Railway
Development Work—Marred by
Bad Accident.

A unique piece of engineering, being the construction of a rock fill for a distance of three miles through Rainy Lake, was the work upon which twelve unfortunate men were employed who were recently blown into eternity by a premature shot of gigantic size.

The C. N. R. at present is crossing the lake on a trestle bridge, but realizing the necessity of a permanent roadbed, a contract was let to Johnstone & Carey for the construction of a roadbed from a point four or five miles east of Fort Frances clear across the lake, utilizing the numerous islands as anchorage. The contractors have been working practically the whole of 1911 on this stupendous engineering feat, and the work has been pushed for nearly two miles.

This is the first work of the kind done in Canada, and some of the dumping contrivances are absolutely unique in the history of engineering.

By utilizing a floating bridge, consisting of three pontoons, and a set of rails with no bottom, the work has been rapidly pushed.

SLOT MACHINE FRANKS MAIL

Look Out for London Letters Now
Post Office on Penny-in-the-
Slot Principle.

If you receive by this and future mails a letter from London minus its stamp do not imagine that the sender has necessarily forgotten to pay postage. A careful examination of the envelope will probably reveal a red circle, within which may be seen at the bottom a small crown and above the legend: "London, E. C., 1d postage paid," which means that the sender has taken advantage of the automatic franking machine placed the other week in the general post office for the purpose of doing away with the bother of using stamps. Any one wishing to "stamp" a letter places the envelope in the machine, puts a penny (two cents) in a slot, and the machine impresses in place of a stamp the aforesaid circle of red and its contents. Any letter bearing this impression will be treated as if it bore a postage stamp of the value of two cents, provided that it bears also the postmark of the office of posting. Should the trial prove satisfactory automatic machines will come into general use.

The government telegraph line has reached Dundegan, on the Peace River, the farthest north point on the continent.

LAND PURCHASE NOTICES.

Skene Land District—District of Coast,

Range 6.

Take notice that I, Theodore Nicholls, driver, of Victoria, B. C., Can., intend to apply for permission to purchase the following described lands:

Commencing at a post planted at the southwest corner of Lot No. 2287, thence east 80 chains, thence south 40 chains, thence west 40 chains, thence south 40 chains, thence west 40 chains, thence north 80 chains to point of commencement, containing 480 acres, more or less.

Pub. Dec. 14, 1911.

GOOSE BAY SMELTER WILL BE STARTED THIS SPRING

F. M. SYLVESTER, ASSISTANT GENERAL MANAGER OF GRANBY
COMPANY, MAKES STATEMENT THAT NEXT SPRING
SMELTER WILL BE RUNNING.

"Construction work on our proposed smelter at Goose Bay, Observatory Inlet, Portland Canal district, will be started early this spring. The plant will have an initial capacity of 2,000 tons daily and will make a bid for the treatment of custom ores from Northern British Columbia and South-eastern Alaska," said Mr. F. M. Sylvester, assistant general manager of the Granby Consolidated Mining & Smelting Company of Grand Forks, B. C., the other day at Vancouver.

"The smelter will be in operation in the spring of 1913 and will be enlarged from time to time to meet future requirements. Meantime development work on our Hidden Creek copper-gold group at Goose Bay is in progress and already vast ore reserves have been blocked out. Surface operations will be resumed in the spring when we will probably have a pay roll of four or five hundred men, exclusive of the men engaged in smelter construction. A tramway from the mine to the smelter site on the shore will also be built this year. We have not bonded any other properties, but have a lot of data secured by Mr. W. Yolen Williams, our consulting engineer, who toured all the northern camps last summer.

"The recent increase in the price of copper has greatly stimulated mining in the Boundary district. Our mines at Phoenix now employ a full crew and our smelter at Grand Forks is operating at its capacity of 4,000 tons daily. The outlook for the coming summer is indeed very bright."

If a burglar broke into a cellar, would the coal shute? No, but the kindling wood.

Three hundred thousand seven hundred five immigrants arrived in Canada during the last ten months.

Old Le Roi Still Working.

The Le Roi was purchased by the Consolidated Company last summer. Connections were made with the Centre Star mine on various levels, and the motor haulage system of the latter mine extended into the former. The output of Le Roi was about 19,000 tons of ore. The big boiler plant of the Le Roi is not now used, the Le Roi hoist being operated by air from the Centre Star compressor.—Report of Provincial Mineralogist.

The Art of Advertising.

The wise old lad who writes an ad steers clear of wearisome digression; he knows he should be understood if he would make a good impression. Old Jabez Dink with printer's ink kicked up a large and noisy shindy, but didn't sell his dry goods well, because his ads were long and windy. And now he rants around and pants and cusses in a style surprising. "One thing I know," he says, "by Joe, there is no good in advertising!" But Gaffer Spink buys printer's ink, and clothes his ads in happy diction, and people read his every screed as though it were best seller fiction. His breezy ads bring him the scads and fill his store with eager buyers, while merchants near loaf by the year and chew the rag with weather liars. Says Gaffer Spink: "I surely think that when I've goods to place before them, I shouldn't try to make folks buy by starting in to tire and bore them. And so I write my ads as bright and forceful as my hand can do them." Thus Gaffer brags: "I sell my rags—I don't sit round my store and chew them!"—Uncle Walt.

The other morning at 8 o'clock three hundred and fifty-five hungry men assembled at the Yonge street mission, Toronto, for the Sunday morning breakfast.

Use Our Mail Order Service

Save Money and Enjoy Quality Goods

Each mail and express that leaves Vancouver carries shipments of goods from our big store to all points in British Columbia. No regrets follow purchases made through this service. We handle all our British Columbia Mail Orders through our Vancouver store. Write for our illustrated catalogue, it describes our fine stock and instructs you how to buy. A card with your address will bring it free to you by return mail. Our lines of wedding presents command the attention of all. Write today.
