What's Wrong Rupert People?

Are they lazy or careless? Or have they an inferiority complex? We don't believe they are dull.

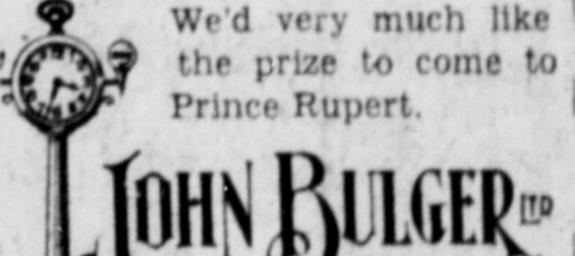

Yet some time ago we advertised a \$1000 contest for the best letter about Bluebird Diamonds and had only a few entrants.

Would it be because people are suspicious that there might be something more to do or something to buy?

Anyhow an agricultural student won the prize with a letter no better than many Prince Rupert people could have written.

Well we now have another \$1000 prize contest which only needs the best letter of 50 words about Parker Pens. No pen to buy, nothing else to do later.

Why not try? We'll tell you all about it, or see our window! and ask for an entry blank.

NEW AND BETTER

For the Halibut and Salmon Fleets

Following the investigations of the Fisheries Research Station the Company has just completed extensive changes and improve ments in ice storage and ice delivery methods.

Ice for the boats will all be old ice, thoroughly cared or aged at new low temperatures. It will be delivered into the hold, even in the hottest weather, as cold as the storage room.

Fishermen are invited to inspect the new system. Better ice than ever before, at no increase in cost, means econo to the boat and improved quality in fish delivery.
