DEPENDS UPON HITLER

Asked when the election would be held in Great Bri- CONNECTIONS WANTED tain, Prime Minister Chamberlain intimated that the date of the British elections would depend very much upon Adolf Hitler. While the situation was tense no election would take place. Should the international situation settle down, an election would likely be held this year.

BRITISH ARMY

Britain has always been looked upon as a great naval power but her army has been more or less insignificant compared with the armies of other European countries. However, a change has come over the face of Europe and one of the changes is the emergence of Britain as a military power with close to three quarters of a million men BOARD, Good home cooking, 814 in arms. This will provide a very effective force. One of the inportant features of the new army is that the young men are physically fit. We are told that very few have been been rejected because of unfitness. This is an excel- CLEAN, well-furnished modern aplent record and speaks well for the future of the country.

BANKS ARE THREATENED

Three of Canada's largest banks have refused any further credit to the city of Montreal and a letter, written on behalf of the banks to the mayor and published by him, is alleged to have ruined the credit of the city with the result that the city has threatened to enter suit against FOR SALE-House on Thompson the banks, claiming two million dollars damages.

This is a new attitude for a client to take in regard to the banks. If the city were solvent the banks would be only too glad to give it credit because they have millions bench, lovely tone, cheap for cash, of dollars more than they need. While with most of us shortage of cash is our trouble, with the banks too much money and no demand for its use is their trouble.

We do not think the mayor of Montreal can make out a case against the banks but this case draws attention to the peculiar position in which the banks of Canada and United States find themselves today.

TAKING HOLIDAYS

When Prince Rupert people take a holiday they seem in the Matter of the "Administration to know only one way to go. They usually drive south to California. That may be all right in the winter but, in the day of June 1939 I was appointed Acsummer, California is no place for British Columbia ministrator of the Estate of Venzi people. It is too hot and uncomfortable. "See Canada deceased, and all persons having claims First" is a very good slogan for summer holidays.

NEW AND BETTER

COLD CURED ICE

For the Halibut and Samon Fleets

Following the investigations of the Fisheries Research Station, the Company has just completed extensive changes and imments in ice storage and ice delivery methods.

Ice for the boats will all be old ice, thoroughly cured aged at new low temperatures. It will be delivered into the hold, even in the hottest weather, as cold as the storage room.

Fishermen are invited to inspect the new system. Better ice than ever before, at no increase in cost, means to the boat and improved quality in fish delivery.
