WAR TIME RESTRICTIONS

Gradually we shall get used to the idea that we are at war and that, under those conditions, we have to sacrifice a good many things. Possibly our food supply may be! restricted in time if the war continues for several years. Newspapers are already very greatly restricted as to what news they may publish. Nothing is allowed that might possibly be directly or indirectly of advantage to the enemy. So also the actions and conversation of every person is restricted. We may not like it but it is so. Just let les someone try expressing sentiments that might be considered of advantage to the enemy by creating a sentiment in their favor and he will soon find out that it is war time and that peace time privileges are suspended for the time, being. Ships have to be darkened at night and they must until UNUSUAL possible sinking by submarines. Complaints are comingly in from coastal boats that must not use their radio hecause it is war time. Before it is over we may be all glad to carry gas masks as they do today in England.
