### SUBMARINE DESTROYED

Bodies Come To Surface After German Undersea Craft Is Disposed Of By Depth Charges

PARIS, October 28: (CP) -French military commentators said today that the French Navy had established proof that a German submarine had been sunk on Thursday in undisclosed waters. Bodies of one officer and several men are stated to have come to the surface. The u-boat is believed to have been the victim of a depth charge.

French anti-submarine activity NDON, October 28:-In charge | is increasing in intensity and effectiveness.

HOW DO THEY STAND. AMSTERDAM-The Berlin correspondent of the Amsterdam Telegraph says that the stage appears to be preparing for a against Great Britain and France. The Berlin-Rome axis is stronger, he declares, than some powers, he declares, than some not agree with a statement published in an influential newspaper in Rome today that "Italy The release of the ship had, will retain its neutrality in spite previously announced in Mos- of pressure. GERMANY AND POPE BERLIN- The Berlin press highly praised that part of Pope Pius' encyclical concerning unfair treaties but omitted reference to the condemnation of totalitarian states and neo-Paganism. Reich authorities, however, are believed to have recognized this was directed against Germany.

INTERLUDE IN FLIGHT FROM POLAND

During the flight of terrified Polish women and children from towns and villages in the path of Germany's "blitzkrieg," scenes like this were the rule along the countryside whenever German warplanes appeared overhead. The fugitives took to the ditches and gullies and hid until the "birds of ill omen" had passed. Then they resumed the weary trek towards Roumania.

Battleships

LONDON, October 28: (CP) ---British naval vessels have received instructions to conduct a relentless search for two German pocket battleship raiders, the Admiral Scheer and Deutschland, which are at large on the hight seas. That the Navy will eventually be successful in tracking down the two raiders and either destroying or capturing them is the confident opinion although there is always the remote possibility that they may be able to creep back to their base. How long they will be able

their fuel and food supplies. Each of the raiders is equipped with eleven six-inch guns. Each has a cruising radius of 20,000 miles and speed of twenty-eight knots.

Fears of encountering Britisa naval vessels has undoubtedly kept them off the frequented trade routes and accounted for the fact hat, so far, they have done so
