CONSCIENTIOUS OBJECTOR EDITOR, Daily News:

It appears that the city of rince Rupert is about to borrow \$40,000 for replacing its sewers. understand that the bonds are be guaranteed by the Dominion government. Objectors are asked to state their reasons against such the Skeena River. proposition. My objections are based upon the fact that I am part of the Dominion government, which proposes to make this guarantee. I object for the reason that the government thus sumes the same liability as would vesterday afternoon. be the case were they making the loan, and because the Dominion government is not receiving any of the benefits supposed to accrus in the way of interest.

These bonds, or guarantees, are also part of the national debt and he national debt is a mortgage upon my property, as well as the

ly in the city of Princ Rupert. Should the city borro this money directly from Dominion, and pay the interest the Dominion, I would have no objection whatever to the pro-

posed bond issue. At this time I might also state! my objections to the Dominion paying a salary to the Governo of the Dominion Bank. It appears to me that his salary should be in than in the interest of Ca adian taxpayers. When Mr. Towers makes the statement: "The national debt of Canada is an asset to the country," it seems that his services to the people of Canada are not sufficient to warrant their paying him the large salary he now receives.

that for many years, our capital sts have been bemoaning the fac that the country is going completely to the dogs because of the Dominion debt, and the C. N. R. deficit.
