## FOITODIAIC

THE GERMAN AIM

According to Herr Rauschning in "The Revolution of Nihilism" the Germany of the future will contain huge collective farms with the work done by aliens superintended by Germans. The new German is to be a ruler, a soldier and an administrator like the ancient Romans. This seems to be the copy of a dream by Premier Benito Mussolini of Italy who envisaged the return of the great Roman Empire.

However, Italy is to take second place along with, Great Britain in this new world in which Germany is to predominate. There is no intention of subjugating Britain and France but only nursuading them to take second place along with Italy and Germany as the predominant partner.

The idea of bringing all Germans within the Reich is only a temporary policy. The new Germany is to include the whole of Europe. Britain is too old, feeble and stupid to do anything; France too amiable, the United States too timid. It will take Germany efficiency to make National Socialism really work.

The new world is to be not a world union as planned under the League of Nations but a world following with FOR SALE-6 room house 2 lots, Germany outstandingly in the lead. The United States will be decimated by revolution before it comes under German domination. Poland will be absorbed and so will FOR SALE—Best cash or terms! JugoSlavia and Hungary. Poland is simply one step in the organization of this new world order and most of it will be brought about by revolutionary strategy and military pressure and diplomacy.

LONDON, Aug. 30: (CP)-According to where they emanate, there are conflicting reports as to incidents on the German-Polish frontiers. Both Germany and Poland deny engaging in terrorism or being responsible for untoward incidents. Either blames the other for incidents that might provoke the outbreak of war by reprisal.
