A New Europe

This scene, passed by the German censor, is unusual because it gives for the first time since the beginning of the war a view of a flotilla of German U-boats in an unnamed naval base. In the foreground the crew of an undersea boat, just returned from a tour of duty at sea, are enjoying the luxury of a meal on the deck of their boat. In the background are at least seven of the undersea craft riding their moorings.
