Great Britain Building up Stock of War Supplies-Canada Gets \$22,000,000 in Orders

LONDON, June 27: (CP)-Munitions orders totalling about \$22,500,000 have been placed in Canada during the last three weeks, Rt. Hon. Herbert Morrison, minister of supply, told the House of Commons today.

Mr. Morrison said that Great Britain was increasing munitions orders in Canada, other Dominions and the United States not only because of immediate necessities but as insurance against the future.

It is indicated that Great Britain is looking forward to taking the offensive in the war.

Meantime British production for war purposes is now running beyond expectations in speed and volume.

Large numbers of planes are being delivered from the United states and the Dominions.
