Unless breakfast makes you think

... you won't get the quick energy you need!

That's why more and more wives start their menfolk off with Kellogg's Corn Flakes, the breakfast that does these three important things. First, Kellogg's, proven tops in flavour*, tempt your appetite. Second, crammed with energizing "carbohydrates," they start you quick. Third, steadily releasing energy, they help keep you going through a long morning's work.

Think too, of the time and work they save! Ready in 30 seconds, no pots or pans to clean. Get several packages tomorrow-or if you eat out, ask for Kellogg's Corn Flakes in the wax-wrapped individual package. Made by Kellogg's in London, Canada.
