New Controller Of Timber Has Been Appointed

OTTAWA, December 10 (Canadian Press)—Loren L. Brown of Montreal and Vancouver, deputy timber controller since last June, has been appointed timber controller of the munitions and supply department. He succeeds H. R. MacMillan of Vancouver who has been assigned to be chairman of the newly created wartime requirements board.

The United States Bureau of Fisheries boat Brant arrived in port this morning bringing the members of the International Fisheries Commission following their hearings at Alaskan ports. L. W. Patmore, chairman of the commission, left the boat at Prince Rupert to spend a few days visiting with his son and daughter. The boat is going right through to Seattle with the other members of the Commission and party.

ITALIAN FORT TAKEN BY BRITISH

British soldiers are shown occupying the ruined Italian fort which was captured by the British western desert forces after a fierce shelling reduced the fort to rubble.

Letter Box

PARCELS LOST OR DELAYED

Editor, Daily News:

You will recall that on November 20 I wrote you in regard to the question of the delivery of mail to troops overseas, pointing out that a large volume of mail was on board the C. P. R. freighter "Beaverford," recently sunk in the Atlantic. It may interest you to know that there were 11,000 parcels of tobacco, intended for soldiers, on board this steamer.

A further instance of "unavoidable" delay in the delivery of overseas mail has just come to my attention. The cover of an item of mail matter received on November 29 by an officer of the Department has been submitted to me and the date stamp shows that it was mailed at a Field Post Office in England on October 17. The letter was included in the mail placed on board S. S. "Beaverhill" which left England 18 October. This steamer was subsequently attacked by the enemy and was forced to return to England for repairs, upon completion of repairs the steamer sailed again and arrived in Saint John at 5:00 a.m. on November 28. Delivery of the mail on board, as shown by the item in question, was effected in Ottawa on November 29—43 days after date of mailing. I have brought these two recent

cases to your attention, in order that you may have some definite examples of the problems which arise and render it difficult to provide an uninterrupted mail service under present day conditions.

During the week ending November 23, some 162,120 letters, 60,640 parcels and 324 bags of news were handled in the Base Post Office, Canada, for despatch to overseas troops.

Ottawa.

Man in the Moon

Everybody would like to see the city go ahead but they think it's somebody else's job to do the pushing.

The man who has not an enemy in the world has possibly outlived them all.

In a large hospital when a post mortem is to be performed the doctors all gather to hear the lecture that follows. Word is passed around. In one hospital they page Dr. Mortimer Post as the least objectionable way of letting them all know of the coming event.

Overcome all your fears by actions. They generate while you sit still.

Don't forget that while Prince Rupert is crowded with soldiers the navy still remains the senior service and should be the first mentioned such as "Navy, Army and Air Force."

We should be much likelier to succeed if we spent less time wishing and more time working.

Alberni is talking about establishing a civic centre to be used as a sports centre, military centre and social centre. Prince Rupert also has been talking for a number of years. I bet on Alberni.

A motorist dropped in at a village inn for a drink. The oldest inhabitant was just finishing his pint so the stranger bought him another. He swallowed it at a gulp. He was given another and a third. Each time it went down in one.

"Do you always swallow pints like that?" asked the stranger.

"Aye, sir, ever since my accident forty years ago."

"What was that?"

"Why, sir, I 'ad a pint knocked over."

WARNING INFLUENZA

To be Forewarned is to be Forearmed

With the possibility of influenza again becoming epidemic in British Columbia, the Provincial Board of Health calls attention to the following:—

People are very much given to underestimating the effect of this disease and to regard it more as a common cold.

Remember, first, that it is very infectious, and you owe it to yourself and to your neighbors to do everything to avoid catching it; and—

Secondly, if you do catch it, that your duty to your neighbors is to prevent them from catching it from you.

It begins as a common cold, headache, pains in muscles, chills, feeling of cold in the head, soreness of throat, fever.

PERSONAL PRECAUTIONS

The germ of the disease is transmitted by:—

- (1.) Droplets of spray from loud talking, coughing, and sneezing.
- (2.) Through drinking and eating out of utensils improperly cleansed.
- (3.) By direct contact.

NOTE—The mild cases are as dangerous for spreading as severe ones. More even, because a man with a mild case comes in contact with a greater number of people.

(4.) The carrier plays a larger part in the spreading of the disease than is realized.

Therefore

AVOID CROWDS

(5.) There is no vaccine against influenza.

If attacked by the disease, keep warm, send for the doctor, and keep the other members of the family out of the room. If the children complain, keep them at home, and remember, if care is not taken, that the after-effects of the disease are the cause of the deaths.

Isolation of the Patient will prevent the Spread of the Disease

GENERAL RULES

1. Avoid needless crowding; influenza is a crowd disease.
2. Smother your coughs and sneezes; others do not want the germs which you would throw away.
3. Your nose, not your mouth, was made to breathe through; get the habit.
4. Remember the three C's: "A clean mouth, clean skin, and clean clothes."
5. Open the windows, always at home at night; at the office when practicable.
6. Your fate may be in your own hands; wash your hands before eating.
7. Don't use a napkin, towel, spoon, fork, glass, or cup which has been used by another person and not washed.

PROVINCIAL BOARD OF HEALTH, BRITISH COLUMBIA.

U.S. TEST-TUBE SLEUTHS

WYNDMOOR, Pa., December 10 (CP)—Backed by an appropriation of \$750,000 a year, U.S. Department of Agriculture experts are busy in laboratories here finding new or improved uses for tobacco, milk products, apples, potatoes and other farm products.

UNDER NAZI RESTRAINT COPENHAGEN, December 10 (CP)—The minister of trade has ordered a temporary ban on trade in any sort of rubber for automobiles.

Ship a 10 lb. Box of Rupert Brand Kippers To Your Friends

For \$1.50 we will deliver a box of Kippers to your friend's house in any Express point in B.C. or any Canadian National Railway Express point in Alberta, Saskatchewan and Manitoba.
