WINDSOR HOTEL CASE

As was expected, Police Magistrate Carss has the wn out the charge against the Windson al. We shall comment on this case as sooth, the provincial election is over---when, it be hoped, it can better be viewed in a non-partisan light.

-From the Empire, March 20th.

THERE IS PLAINLY A REASON for the existance of such a condition of affairs. comment on a local hotel case should be withheld until after a Province at 7election shows to what extent Ring Rule politics is carried. Mayor Editor Newton's stogan when he was seeking the suffrage of the people a few months ago was "Down with Ring Rule and a Square Deal to All;" yet now he has the effrontery for political reasons to state brazenly that "comment will be withheld until after election," when it is to be hoped it can be viewed in a nonpartisan light. Is such a procedure a square deal to all? Is it down with Ring Rule? Is it not apparent to any reasonable person that Mayor Editor Newton had a hatchet to grind and that he has buried his hatchet? We wonder what the funeral cost?

MORE TABLOIDS

It is beyond our comprehension why any others than boodlers should band themselves together to secure the defeat of an honest, progressive and efficient government.-Empire.

Is the Empire aware of the fact that the public accounts have not been audited in the last three years. Perhaps if an audit was made the public would learn how much it costs for these changes of front.

There is no doubt that the McBride government will be returned to power. Surely, therefore, it will be good business for the Skeena district and the city of Prince Rupert to elect a supporter. We do not know what our needs will be in the course of the next four years .-

Who is the supporter referred to? He does not mention the name of "Spineless William" in this connection. (Someone has said that "Silent William" has a spine, but there is a sausage in it.) It is quite easy to tell the Empire what a good many of our needs will be for the next four years. If "Silent William" should by some fluke be returned our needs will never be heard of in the Legislature. We will get what McBride-Bowser think we should have. Only by the election of Alex. M. Manson will the people of this constituency have their needs put to the government in a manner to compel proper recognition.

In these days, especially with the prairies as our competitors, settlers will not go far ahead of the railway. How, therefore, can we hope to settle the province if we do nothing in the way of railway expansion?—Empire.

There is no opposition to legitimate railway expansion. Mayor-Editor Newton makes a deadly thrust; surely it is not at the opposition to the present government. Pray, then, who can it be? What the opposition does object to is by pledging the credit of the country to parallel a railroad already built or under construction. What the northern opposition objects to principally is endorsing a policy that tends to the upbuilding of the south to the detriment of the north.
