MANY BOYS JOINING UP

Local Sea Cadet Corps Proves Popular—Finances Needed For Equipment

The number of boys desirous of enrolling in the Sea Cadet Corps of the local branch of the Navy League of Canada considerably exceeds the assigned strength of seventy-five. No less than twenty-seven new recruits have made application and are now on probation. In addition to this, there is a long waiting list. Under Lieut. Alex Mitchell, the commanding officer, weekly parades and drills are now being held each Wednesday evening.

These facts were reported to a meeting of the local executive of the Navy League at a meeting last night. In view of the new enrolments, the funds of the executive will be strained to finance uniforms and equipment which it will be necessary to purchase. A committee comprising the president, M. Winslow, and A. L. Holtby, will proceed with arrangements for a canvas for donations and new

members. Another committee consisting of A. L. Holtby and Capt. Harry Calderwood will make arrangements for the obtaining of suitable storage facilities for the Cadet Corps' equipment.

Commander Geoffrey Borrie P. C. N. R. and William Crickshank were added to the membership of the executive, the former executive in his capacity as local naval commanding officer and the latter in succession to F. A. MacCallum who recently left the city.

The following officers' appointments to the Corps were approved and sent on to Navy League of Canada headquarters for ratification:

Sub Lieutenants—William Baker, and Gordon Calderwood.
Warrant Officers—William Hunter, Alan Large and Gwyn Holtby.
Paymaster Lieutenant, Ned Tobey.

KISS YOUR TIRED FEELING GOODBYE!

Peppless Many Suffer Low Blood Count—And Don't Know It.

The baffling thing about low blood count is that you can weigh about as much as you ever did—even look healthy and strong, yet you can feel as if you had lead in your legs, doped, tired and peppy.

Low blood count means you haven't got enough red blood corpuscles. It is their vital job to carry life-giving oxygen from your lungs throughout your body. And just as it takes oxygen to explode gasoline in your car and make the power to turn the wheels, so you must have plenty of oxygen to explode the energy in your body and give you going power.

Get Dr. Williams' Pink Pills today. They are world-famous for the help they give in increasing the number and strength of red corpuscles. Then with your blood count up, you'll feel like bounding up the stairs as if you were floating on air. Ask your druggist for Dr. Williams' Pink Pills today.
