SPEEDING UP WORK

Evidently the Canadian department of defence is now imbued with the necessity of speeding up work in Prince Rupert in order to place our defences on a proper footing. The air base at Seal Cove is to be completed in sixty days if the material is available. At any rate there has been delay over making a start and it is understood the work will be rushed to completion at the base just as fast as material can be secured. The sound of hammer and saw are being heard there today and will be heard daily until German break-through towards the the last nail is driven and airmen move in.

AN AMERICAN SPEAKS

"I can speak only as an American citizen who is devoted with all his heart and soul to our common cause,' says Robert Emmet Sherwood, eminent American playright. And it is our common cause. We Americans are rapidly awakening to the fact that we are already at war. For Hitler and his allies are at war with all men who believe in liberty and democracy, law and justice. It would be very difficult to find any American patriot who has not During the eight years before the thrilled to the fighting words of Winston Churchili, especially when he said that if the British Commonwealth shall last for a thousand years, men will say that this was its finest hour. The vast majority of us Americans know that the future of our free institutions and our democratic faith is at stake in the Battle for Britain. We now realize that your Canadian men-all the gallent men who are offering heroic resistance to Hitler—are fighting to defend our homes as surely as their own. We say, may God give bassador in Berlin. When Hitler them strength-and may we give them reinforcement-drew up at Godesburg in Septemnow!
