A NEW YUKON RAILWAY NOW

Deputation, including Dr. Thompson, M. P. for the Territory Waits on R. L. Borden Regarding Project.

Premier Borden has been waited upon the other day by a deputation consisting of Sir Rodolphe Foraget, Edmund Bristol, M. P., Toronto, and Dr. Alfred Thompson, M. P. for the Yukon. They asked for a government subsidy for a line of railway from Haines Mission to Fairbanks, Alaska, skirting the coast for 40 miles to a branch line to Dawson. The necessity for a railway in the territory it was proposed to serve was emphasized and a liberal subsidy for the portion of the line which would be in Canadian territory asked for. Mr. Borden said that the proposal would receive the serious consideration of the government.

FEARS OF LANDSLIDE

Two Million Dollar G. T. P. Hotel is Threatened.

Winnipeg, March 22.—A catastrophe threatened this afternoon on the site of the Grand Trunk Pacific Hotel on Broadway, the Fort Garry two million dollar structure in course of erection, when thousands of tons of earth started to sink rapidly into the excavation.

The first intimation of what was happening was the creaking and groaning of the timber stays on the northeast corner. Nothing could be done to stop the slide and it is calculated that the pressure exerted by the earth was six thousand pounds to the square foot. Heavy steel pillars were bent in as if they had been paper and the entire east side of the steel structure is badly strained. A gaping fissure six feet wide marks the extent of the landslide; it extends the entire length of the east side of the excavation and half way across the north front.

For row boats and launches telephone 320 green. Davis boat house.

MORGAN BUYS WINNIPEG TRAM

Sir William Mackenzie Accepts Thirty Million Dollars for His Winnipeg Electric Tram, Heat, Light and Power Plant.

Winnipeg, March 22.—A few days ago all negotiations were concluded for the purchasing of the Winnipeg electric street railway and heat, light and power plants at a cost of \$30,000,000. The J. Pierpont Morgan interests are the new owners. Mr. Joseph H. Choate Jr. is here for the legal side, and Messrs. Foster and Richardson, experts for the J. G. White Company of New York.

The company agrees to spend William Mackenzie of Toronto, the owner, desires to put the money he gets out of the deal into other enterprises where friction with municipalities is not so intense as in Winnipeg.

The only remaining act is the ratification of the agreement by the Legislature of Manitoba, which is now in session.

Winnipeg, March 22.—J. P. Morgan & Co. officially deny that they are interested in the purchase of the Winnipeg Street Railway Company. Mr. E. M. Reese, chief factor in the Manitoba Power Company, says, in spite of Sir William Mackenzie's denial, that the deal is completed, and that he is only awaiting the necessary legislation to pay over some \$25,000,000.

Are you playing fair with yourself? Judicious insurance is the first law of the game. To get proper insurance of anything you must see The Insurance People, the Mack Realty and Insurance Company. tf

A REAL GENTLEMAN

Refused to Sell Out Twice on Same Proposition.

A certain saloon keeper years ago was elected to the Legislature at a time when there was important legislation pending. He accepted a thousand dollars for his vote on a certain measure. The deal was hardly closed when the opposition came around offering him two thousand. The temptation was strong, but the new member shook his head.

"No gentlemen as is a gentleman," he said, "will sell out twice on wan proposition!"

Advertising and the New World

WHAT populated America and made its growth one of the wonders of the world's history? Advertising. People heard of the opportunities in the new land, and, believing their material welfare would be bettered here, came.

What populated the farms of the West and made their rapid development the wonder of the century? Advertising.

The government and the railways were not content to wait until the farmers came one by one and discovered these fertile lands for themselves.

They advertised—and accomplished in a few years what in former days would have taken several generations to discover.

What has made cities grow in ten years that they have never grown before? Advertising and its results.

What has made it possible to build up big businesses in a few years where it used to take a generation of steady effort? Advertising.

What has made it possible for a manufacturer to introduce new goods in every corner of the continent in a few weeks' time, where it formerly required years of hard work? Advertising.

Advertising has changed the face of the map. Advertising has revolutionized the methods of doing business. Advertising has magnified the possibilities of business far beyond anything our most optimistic forefathers ever dreamed of.

Advertising has brought to the humblest home comforts and conveniences that were unknown to kings in former generations.

Advertising has raised the standard of living, simplified the manner of living, reduced the cost and time and trouble of supplying our daily needs.

Advertising has made a new world. It has been the greatest civilizing force in the world's history.

Advertising has brought the man in the backwoods in touch with the centres of art and literature and business and made him feel at home with the world.

Advertising brings the world's markets to the very hearth of every home and brings those who have needs to where their needs can be best supplied.

Advertising is to-day a dominant factor in every home, in every factory, in every business office. Like electricity, we have always had it in the world, but only lately have we found out what a tremendous power it is. Little by little it is being applied here and there, in all manner of ways to help the civilized human race.

Advice regarding your advertising problems is available through any good advertising agency or the Secretary of the Canadian Press Association, Room 503, Lumsden Building, Toronto. Enquiry involves no obligation on your part—so write if interested.
